

Weekly Site Energy Usage Monitoring

Monitor how much energy your business site uses per week by reading the energy Meter(s) at the same time each week and recording your observations in the printable log below.

Note the following in your log:

- > Record installation of new equipment and changes to operations or business practices to assess their effects on electricity usage.
- > Monitor the effects of seasons and weather conditions electricity usage, to help you plan energy-saving changes.
- > If your site has separate electricity meters for different sections, monitor each.
For an explanation of how to read your electricity meter(s) visit www.trueenergy.com.au/business_smallmedium/ElectricityMeters.xhtml
