Water Meter Monitoring Activity

This activity will give you a more detailed picture of your water usage. Use it to check how much water you use during a normal working day and to get practice reading and locating your water meters. Recording your water meter readings is a great addition to monitoring your water bills because it allows you to record your usage over shorter periods. You can also use this data to communicate to staff your water savings.

Date: / / 20 **Completed by:**

Company name:

Remember to do this for all the water meters on your site.

Please record at least seven entries to complete this activity
