Community Bank Carrum Downs and Marriott Waters celebrates over \$4 million in community contributions

Community Banks Carrum Downs and Marriott Waters are thrilled to share that since inception they have exceeded the incredible milestone of contributing over \$4 million back into the community.

From sporting clubs like the Frankston Raiders RLC, Dandenong Thunder Football Club, Merinda Park Cricket Club and the Frankston District Netball Association, to a toy library, an animal shelter and accessible playgrounds, when you choose to bank with us, you help us make an impact in your local community. And thanks to your support over the years we have even been able to build an entire house to help women and children at risk of domestic violence.

Making the switch is easy. Find out more about how your banking can contribute to building thriving communities today.

We built a house to help at-risk families

Our transitional accommodation build for mothers and their children who might otherwise be at risk of violence and/or homelessness is complete. Having a safe place to call home is making a life-changing difference to these families. It's a huge project to build a house, and we believe reflects our long-term commitment to building thriving communities.

Fusion Mornington Peninsula have been identifying suitable tenants and providing them with ongoing support, so the tenants will never feel they are in this alone. They say it takes a village to raise a child, and it takes people who care enough to act to build a community. Everyone needs a safe place to call home, and now thanks to our partners at the Payton Foundation and you, our customers, there will be more families who can sleep easy at night.

Supporting families with Frankston Toy Library

We have a long friendship with Frankston Toy Library, and are delighted to support them again this year. The Frankston Toy Library is an invaluable community service that has been assisting young families in Frankston since 1977. They provide families, community groups and organisations that work with children an array of quality toys, games, activities and equipment for a minimal annual fee. One of the largest services of their kind in Australia they are also one of the largest providers of special needs toys and resources. They also provide a hearing support program for families with children with a hearing impairment and have reference books available for borrowing. Providing toys to borrow is not just essential for the healthy development of children through play, it is also a more sustainable way to meet the changing needs and interests of children as they develop, which is great for our planet too.

Community Banking is based on a 'profit-with-purpose' business model. It means our profits are returned directly to the community that generated them.
