

Sandhurst Industrial Share Fund

Monthly fund update - July 2021

Investment approach

The Fund aims to deliver income and capital growth over the long term by investing in a diversified portfolio of quality ASX listed industrial shares (excluding resource shares) where these assets are identified by Investors Mutual Limited (IML) as being undervalued.

Recommended investment timeframe	5 years +
Risk level	High

Unit price

as at 31 July 2021

Application price	\$1.51503
Withdrawal price	\$1.50748

Distribution details (cents per unit)

31 December 2020	\$0.00500
30 June 2021	\$0.01368

Make the most of your investment

► The power of compounding

Compounding can be a powerful tool in wealth creation. Reinvesting distributions can be one of the easiest and cheapest ways to increase your holdings over time. You're compounding your investment's growth by continually adding more units which, in turn, will generate distributions of their own.

Why not reinvest your half yearly distributions?

► The benefits of making it regular

Making regular contributions to your investment can both grow your investment and smooth the effects of market highs and lows.

Why not add a Regular Savings Plan to your investment? Establish one from as little as \$50 per month.

You can also use BPAY® to add to your investment at any time with as little as \$100. See your statement for your BPAY reference number.

® Registered to BPAY Pty Ltd ABN 69 079 137 518

Sharemarket commentary⁵

- ▶ Global sharemarkets were mixed over the month with strong US Q2 earnings offsetting Chinese regulatory clampdowns
- ▶ The Australian sharemarket endured a bifurcated month - industrials were lacklustre, whilst resources were strong

Global sharemarkets continued to be well supported in July with the MSCI World index returning +0.7%. US sharemarkets again traded at record highs thanks to the release of strong Q2 earnings, continued low interest rates and increased corporate deal making. US consumer data also highlighted that many cashed-up Americans spent with abandon in the June quarter as vaccination rates increased and lockdown restrictions eased. The US S&P500 index returned +2.4% for the month.

The Australian sharemarket, as measured by the ASX300, returned +1.1% in July. This was primarily driven by the Resources sector which jumped +6.5%.

Portfolio performance & summary⁵

- ▶ IML continue to use volatility to top up in good quality companies they believe can do well over the next 3-5 years

The portfolio had a disappointing month falling -1.0%, behind its benchmark's return of -0.3%. The portfolio's performance was held back by disappointing performances of some core stocks including Orica and IAG although IML remain confident on the medium-term outlook for these companies as they recover from COVID-induced issues.

Pleasingly, holdings in good quality industrial companies such as Amcor, Spark Infrastructure and AusNet all performed well over the month.

Outlook⁵

Investors will now look to the August reporting season to gain a detailed insight into how most companies are faring in the current COVID situation. The Australian sharemarket continues to trade at record levels with seemingly very little on the horizon to halt its ongoing rise. Having said this, IML continue to steer away from some of the riskier parts of the sharemarket and remain focused on good quality companies which are well-managed, where valuations remain justifiable, and which they believe can do well over the next 3- 5 years.

Footnotes

1. Fund performance figures are calculated before tax and after fees and costs; using withdrawal prices and assumes distributions are reinvested. Past performance is not an indication of future performance.
2. The benchmark for the Fund is the S&P/ASX 300 Industrial Accumulation Index.
3. Morningstar rates managed funds from one to five stars based on how well they've performed (after adjusting for risk) in comparison to similar funds. Within each Morningstar Category, the top 10% of funds receive five stars, the next 22.5% four stars, the middle 35% three stars, the next 22.5% two stars, and the bottom 10% receive one star. Funds are rated for up to three time periods - three, five, and 10 years - and these ratings are combined to produce an overall rating. Funds with less than three years of history are not rated. Ratings are objective, based entirely on a mathematical evaluation of past performance. They're a useful tool for identifying funds worthy of further research, but shouldn't be considered buy or sell recommendations. Sandhurst Industrial Share Fund received a 2-Star Overall Morningstar Rating™ out of 101 Equity Australia Large Value funds as of 31 July 2021. In the Morningstar Equity Australia Large Value Category, the Sandhurst Industrial Share Fund 5 year return was ranked 87 out of 89 funds as of 31 July 2021. 'Morningstar Category Rank' is the Fund's performance rank relative to all funds in the same Morningstar Category. Investments are placed into Morningstar Categories based on their compositions and portfolio statistics so that investors can make meaningful comparisons. For more information refer to our Financial Services Guide (AU) or Financial Advice Provider Disclosure Statement (NZ) at www.morningstar.com.au/s/fsg.pdf and www.morningstar.com.au/s/fapds.pdf. You should consider the advice in light of these matters and if applicable, the relevant Product Disclosure Statement before making any decision to invest. Our publications, ratings and products should be viewed as an additional investment resource, not as your sole source of information. Past performance does not necessarily indicate a financial product's future performance. To obtain advice tailored to your situation, contact a professional financial adviser. The Morningstar Rating is an assessment of a fund's past performance – based on both return and risk – which shows how similar investments compare with their competitors. A high rating alone is insufficient basis for an investment decision.
4. Other fees and costs may apply. See the Product Disclosure Statement for full details.
