Bendigo Socially Responsible Growth Fund

Monthly fund update - November 2021

Investment objective and return

The Fund invests via a selection of expert asset managers that specialise in managing specific asset classes and which take into account environmental, social, ethical and governance (ESG) considerations in their asset selection. The Fund targets a minimum level of 75% of the total assets of the Fund being managed by asset managers that take into account ESG considerations in their investment decisions. The Fund has an objective of entirely excluding investments in companies that manufacture tobacco or tobacco-related products and controversial weapons. Controversial weapons include anti-personnel landmines, cluster munitions, chemical, biological and nuclear weapons. Other activities Sandhurst monitors and aims to reduce are adult entertainment, alcohol, gambling, animal testing and companies with high event controversy.

ESG considerations are primarily applied to listed shares (both Australian and International) and fixed interest. The investment portfolio is constructed in a manner that Sandhurst believes will meet the investment return objective of a return after fees in excess of 4% above inflation over a full market cycle (typically 7 to 10 years).

Make the most of your investment

► The power of compounding

Compounding can be a powerful tool in wealth creation. Reinvesting distributions can be one of the easiest and cheapest ways to increase your holdings over time. You're compounding your investment's growth by continually adding more units which, in turn, will generate distributions of their own.

Why not reinvest your half yearly distributions?

▶ The benefits of making it regular

Making regular contributions to your investment can both grow your investment and smooth the effects of market highs and lows.

Why not add a Regular Savings Plan to your investment? Establish one from as little as \$50 per month.

You can also use BPAY® to add to your investment at any time with as little as \$100. See your statement for your BPAY reference number.

Portfolio Performance

The Fund had a positive month and performed well relative to the peer group. Aiding performance was manager contributions from the Fund's underlying investment managers VanEck and AXA. The Funds positioning in inflation linked bonds and Australian government securities further benefited, in which falls in bond yields provided good returns in these asset classes.

Economic commentary

Markets were mixed over the month of November, as an early month rally in risk assets gave way to a selloff promoted by the Omicron variant and a less accommodative monetary stance from the US Federal Reserve. The Australian dollar fell over 5% with bond yields following the same course, as the market repriced global growth expectations lower. Whilst testing is still early, the variant is expected to be milder, however more contagious, than previous versions of the virus.

Data flow continues to suggest economic growth will remain strong moving into 2022. ISM PMI surveys on both the services and manufacturing sectors display robust readings, with measures such as prices and new orders being high relative to historical levels. This coupled with tight customer inventories indicate demand is well supported. Labour statistics back this data, with US job openings above 11 million, well above pre-Covid measures of approximately seven million.

Within Australia, jobs advertisements data from SEEK indicate a tightening employment market. For November, SEEK job ads are up 50% year on year in which is 52% higher than November 2019. Despite the seemingly tighter employment market, the Reserve Bank of Australia has continued to communicate that they do not expect to raise interest rates until 2024. This is contrary to market pricing, in which financial markets have priced in three cash rate rises over the upcoming 12-month period.

Over the month emerging markets displayed some glimmers of hope in which has been a troubling asset class over the past year. Despite strong returns experienced across developed world markets, the CSI 300 Index, which comprises of China listed companies, has fallen over 16% from the high point in February 2021 to the end of November. Whilst predominately self-inflicted, China has steered an easing in credit growth and property speculation in which is aimed at reducing inequality, hence allowing for a more sustainable growth path leading forward. This, coupled with political interference in some of the larger constituents of the Chinese stock market, has led to a loss of investor confidence within the region. More recently the Chinese Government has pledged more support for the economy, in which markets have cheered.

Footnotes

- 1. Fund Performance figures are calculated before tax and after fees and costs; using withdrawal prices and assumes distributions are reinvested. Past performance is not an indication of future performance.
- 2. The Responsible Investment Certification Program does not constitute financial product advice. Neither the Certification Symbol nor RIAA recommends to any person that any financial product is a suitable investment or that returns are guaranteed. Appropriate professional advice should be sought prior to making an investment decision. RIAA does not hold an Australian Financial Services Licence.
- 3. Morningstar rates managed funds from one to five stars based on how well they've performed (after adjusting for risk) in comparison to similar funds. Within each Morningstar Category, the top 10% of funds receive five stars, the next 22.5% four stars, the middle 35% three stars, the next 22.5% two stars, and the bottom 10% receive one star. Funds are rated for up to three time periods three, five, and 10 years and these ratings are combined to produce an overall rating. Funds with less than three years of history are not rated. Ratings are objective, based entirely on a mathematical evaluation of past performance. They're a useful tool for identifying funds worthy of further research, but shouldn't be considered buy or sell recommendations.
 - Bendigo Socially Responsible Growth Fund received a 4-Star Overall Morningstar RatingTM out of 200 Multisector Growth funds as of 30 November 2021. In the Morningstar Multisector Growth Category, the Bendigo Socially Responsible Growth Fund 3 year return was ranked 35 out of 200 funds as of 30 November 2021. 'Morningstar Category Rank' is the Fund's performance rank relative to all funds in the same Morningstar Category.
