

Socially Responsible Investing

The Bendigo Socially Responsible Growth Fund is a diversified multi-manager growth fund designed to incorporate environmental, social, governance and ethical considerations into the research, selection and monitoring of investments while aiming to deliver a competitive return over the medium to long term.

The Fund targets a minimum level of 75% to be allocated to expert asset managers who incorporate environmental, social, ethical and corporate governance considerations into their asset selection.

Asset managers may consider the following when selecting assets:

- **Environmental** – strategies and actions look to address specific environmental issues, management of environmental impacts and integration of production processes with more durable, recyclable or renewable alternatives.
- **Social and Ethical** – the social impact of activities including community involvement, engagement and indigenous relations, meeting basic fundamental human rights and labour standards.
- **Governance** – the evaluation of a governance structure, board independence and gender diversification, remuneration, bribery and corruption and shareholders rights.

Comfort that good financial performance needn't compromise your values.

Links long-term success with positive environmental and social impacts.

Invest in a wide range of socially responsible assets including shares, property and fixed interest.

Investing meets positive social change

The Fund selects investments from a range of industries, including innovative technologies, aged care and health care. The Fund has an objective of entirely excluding investments in companies that manufacture tobacco or tobacco-related products and controversial weapons. Controversial weapons include anti-personnel landmines, cluster munitions, chemical, biological and nuclear weapons. Other activities Sandhurst monitors and aims to reduce are adult entertainment, alcohol, gambling, animal testing and companies with high event controversy.
