Section A – Transaction Account Rebates

What is a Transaction Account Rebate?

If you hold an eligible account as listed in Section B of this booklet we will give you a monthly fee allowance (a rebate) that we will use to reduce the eligible monthly Transaction Fees you incurred on your account.

The period for calculating your Transaction Account Rebate commences on the first day of each month and ends on the last day of each month.

Eligible Transaction Fees are accumulated during a calendar month and charged to your account on the first day of the following month. On the first day of each month we will subtract your Transaction Account Rebate from the eligible Transaction Fees charged to your account. Any unused rebate does not carry over to the following month.

Fees that are eligible for the rebate in this booklet are identified by '(R)' in Section C.
