About Love Your Sister:

Samuel and his sister Connie were born a year apart, so they've always been close. Growing up they played together, explored the neighbourhood together... and fought cancer together.

Connie has fought cancer three times in her life and Samuel has been with her every step of the way. This time things are different. Connie is dying and she doesn't have much time left.

Faced with the fight of her life, she set Samuel the toughest challenge she could think of. It started as a joke in the kitchen. It turned into a promise.

The goal? To set a new Guinness World Record for the most distance travelled on a unicycle, raise \$1 million and spread Connie's message of breast cancer awareness.

Samuel has consulted all the experts, taken none of their advice and he's setting off on the challenge of a lifetime. He made a promise and is determined to keep it!
