Chairman's report

For year ending 30 June 2021

Well, 2020/21 has been another challenging year for all of us, not only for our Community Bank, but for the wider community in which we operate. The pandemic which we endured last year is still with us this year and causing disruption to everyone's lives as they try and go about their daily routine.

Our Community Investment Information Evening, which has been extremely well attended in the past, suffered again this year. The lockdown due to the pandemic, saw us having to cancel the proposed evening, only a matter of days prior.

Our AGM in October also suffered the same fate, with the meeting held via Zoom and people attending our meeting from the comfort of their homes.

An item of business, which we as a Board had to consider at our July Board meeting was whether to continue with the Skipton Agency. Due to the agency running at a loss, reduced hours and the time spent by branch staff assisting, it was decided to close the agency. This in part was a reflection the effects of the pandemic and lockdowns and the way in which these have transformed people's ways of banking, as more and more customers turn to the electronic forms of banking with us. This by no means dents our ongoing support and commitment to Skipton and surrounding communities.

However, the 2021 Financial Report is a great outcome for us, despite the current banking climate. Profit after tax is \$42,187 (2020: \$74,902). With revenue growth remaining flat mostly due to low interest rates and lower margins, it has been with a steady hand that the Board has overseen the governance of our Community Bank to make sure that we can still meet our commitments and carry out Community Investment contributions as well.

We also managed during the year to undertake a major facelift of our Community Bank Beaufort building, with it now sporting the new brand colours of Bendigo Bank.

I must thank our amazing staff, who have coped extremely well in this time of uncertainty, lockdowns, reduced hours and staffing levels. To Vicki, Jody and Wendy and also Michelle and Patrice (who have left us), 'a big thank you' for your commitment and endeavour in keeping the doors open (our masks on) and our ability to continue operating. Also 'thank you' to Lynne Dickman our Company Secretary for her role in 'keeping the wheels rolling' for Beaufort Community Financial Services Limited. To my fellow volunteer Directors, I thank you for your time and effort over the past twelve months. We have all learnt a thing or two about connecting to the internet for our Zoom meetings and who has good internet service and who hasn't!

Our Junior Directors Naomi Gerrard and Jeff Debast, we thank you for time with us and hope that it has been a learning experience for you. We also felt your despair when the Magic Moments event held in Sydney was cancelled and you could not physically attend because of the pandemic, although an online event was held it is not the same.

It is my pleasure on behalf of the Board to announce a fully franked dividend of 6.5c per share is to be paid this year. This is consistent with the dividends paid in 2017, 2018, 2019 and 2020, bringing the total dividends paid per share to 93.5c since dividends were first paid in 2006.

This dividend will be paid to shareholders in December.

I thank our banking partner Bendigo and Adelaide Bank Limited for their support and excellent products made available to us. We are proud to be part of one of Australia's most trusted brands, Bendigo Bank - the better big bank.

Finally, on behalf of the Board I wish to thank our valued customers, shareholders and all those people who supported us any way during the year. We thank you all for helping make this a successful year during which we celebrated reaching a milestone of \$1.85 million of contributions back to our local communities.

Alan McCartney

Kun 1 Co

Chairman

Manager's report

For year ending 30 June 2021

Welcome to everybody. What an honour to present my annual Branch Manager's report to all shareholders of Community Bank Beaufort for year ending June 2021.

This year we faced unimaginable challenges. COVID-19 lockdowns, cash rate reductions, revenue margin average below 1% all managed by a team operating at 50% capacity.

August saw our agency in Skipton cease trading.

Many customers moved their funds to Atcall accounts due to the unknown impact of COVID-19.

Home loan customers were able to renegotiate their rates to achieve never-before-seen savings which impacted our overall revenue but with fantastic results for customers.

A footings growth of \$2.71 million was achieved during 2021 financial year mostly due to government grants distributed to customers throughout our region.

These results were delivered by an outstanding committed branch team. 50% of this year saw a full complement of staff. To Michelle, Patrice, Wendy and Jodie I would like to say a very big thank you for your commitment to keeping yourselves and our customers safe.

To the Board members who volunteer their time throughout the year a very big thank you for your contribution and guidance to all community groups and the belief in providing banking services to our communities.

A decision to fund an exterior refresh of our branch in the new Bendigo Bank colours now sees the trendiest building in Beaufort and a benchmark for all others.

Our franchise partner Bendigo and Adelaide Bank Limited has begun transforming their products, it's systems and processes to streamline interactions for employees and customers.

The introduction of an award-winning home lending product has seen fantastic opportunities for both lenders and customers throughout this year.

This transformation is ongoing with a major focus on digital offerings for our customers which will take our Bank well into the future allowing us to deliver the exceptional customer service for which we are renowned.

Our partners at Rural Bank, Business Banking, Wealth and Regional office must be acknowledged for their contribution to our business. Restrictions of movement throughout this year saw minimal branch contact but the exceptional level of service, that our customers expect, was limited but still maintained. A big thank you to David, Anton, Jeremy, Josh, Leanne and Chris.

I say welcome to our new customers. Your banking is making a huge difference to our patch. "I didn't realise you offered all this. I am so glad I came to see you," is my reward.

To all our existing customers please continue to advocate for your branch. Together we can all make a difference.

Now more than ever we require all community members, grant and sponsorship recipients, shareholders and Board Directors to choose Community Bank Beaufort as their main bank. With professional specialist service available in your local patch. "Why would you go elsewhere?"

We start the new year with two lending vacancies. Recruitment across regional districts is a roadblock to growth. The opportunity to welcome new loan customers to our branch and farmers to our business partners in Rural Bank will see us achieve growth in 2022.

Your sincerely

Vicki Hancock Branch Manager

Bendigo and Adelaide Bank report

For year ending 30 June 2021

On behalf of Bendigo and Adelaide Bank, thank you! As a shareholder of your local Community Bank company, you are playing an important role in supporting your community.

It has been a tumultuous year for every community across Australia, and across the world. For our business, recognition that banking is an essential service has meant that we've kept the doors open, albeit with conditions that none of us could ever imagine having to work with.

Face masks, perspex screens, signed documents to cross state borders, checking in customers with QR codes and ensuring hand sanitiser stations are filled aren't what you would expect as a bank employee.

Then there's the fact that while communities have been, and continue to go in and out of lockdown, digital and online banking has become the norm.

So, what does that mean for Bendigo Bank and the Community Bank that you are invested in both as a shareholder, and a customer?

What we're seeing is that your Community Bank is still as important, if not more so, than when you first invested as a shareholder. If the pandemic has taught us anything, it has taught us the importance of place, of our local community, our local economy, our community-based organisations, the importance

of social connection and the importance of your local Community Enterprise – your Community Bank in providing, leadership, support, and assistance in these difficult times.

As we continue to adapt to this rapidly changing world one thing that continues to be important to us all is supporting each another and our strong sense of community.

Your continued support as a shareholder is essential to the success of your local community. Thank you for continuing to back your Community Bank company and your community.

Collin Brady

Head of Community Development

Directors' report

The directors present their report together with the financial statements of the company for the financial year ended 30 June 2021.

Directors

The directors of the company who held office during the financial year and to the date of this report are:

Significant changes in the state of affairs

Since January 2020, COVID-19 has developed and spread globally. In response, the Commonwealth and State Government introduced a range of social isolation measures to limit the spread of the virus. Such measures have been revised, as appropriate, based on case numbers and the level of community transmission. Whilst there has been no significant changes on the company's financial performance so far, uncertainty remains on the future impact of COVID-19 to the company's operations.

In the opinion of the directors there were no significant changes in the state of affairs of the company that occurred during the financial year under review not otherwise disclosed in this report or the financial statements.

Events since the end of the financial year

There are no matters or circumstances that have arisen since the end of the financial year that have significantly affected or may significantly affect the operations of the company the results of those operations or the state of affairs of the company, in future years.

Likely developments

The company will continue its policy of facilitating banking services to the community.

Environmental regulation

The company is not subject to any significant environmental regulation.

Directors' benefits

No director has received or become entitled to receive, during or since the financial year, a benefit because of a contract made by the company, controlled entity or related body corporate with a director, a firm which a director is a member or an entity in which a director has a substantial financial interest except as disclosed in note 30.

Directors' report (continued)

Indemnification and insurance of directors and officers

The company has indemnified all directors and the manager in respect of liabilities to other persons (other than the company or related body corporate) that may arise from their position as directors or manager of the company except where the liability arises out of conduct involving the lack of good faith.

Disclosure of the nature of the liability and the amount of the premium is prohibited by the confidentiality clause of the contract of insurance. The company has not provided any insurance for an auditor of the company or a related body corporate.

Directors' meetings

The number of directors' meetings (including meetings of committees of directors) attended by each of the directors of the company during the financial year were:

Proceedings on behalf of the company

No person has applied to the Court under section 237 of the *Corporations Act 2001* for leave to bring proceedings on behalf of the company, or to intervene in any proceedings to which the company is a party, for the purpose of taking responsibility on behalf of the company for all or part of those proceedings.

No proceedings have been brought or intervened in on behalf of the company with leave of the Court under section 237 of the *Corporations Act 2001*.

Non-audit services

The company may decide to employ the auditor on assignments additional to their statutory duties where the auditor's expertise and experience with the company are important. Details of the amounts paid or payable to the auditor (CountPro Audit Pty Ltd) for audit and non-audit services provided during the year are set out in note 29 to the accounts.

CountPro Audit Pty Ltd were not engaged to provide any non-audit services during the financial year (2020: Nil).

Auditor's independence declaration

A copy of the auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 9.

Signed in accordance with a resolution of the directors at Beaufort, Victoria.

Alan Thomas McCartney, Chair

Dated this 17th day of September 2021

Notes to the financial statements

For the year ended 30 June 2021

Note 1 Reporting entity

This is the financial report for Beaufort Community Financial Services Limited (the company). The company is a for profit entity limited by shares, and incorporated and domiciled in Australia. The registered office and principal place of business is:

Registered Office

Principal Place of Business

17 Lawrence Street Beaufort Victoria 3373 17 Lawrence Street Beaufort Victoria 3373

Further information on the nature of the operations and principal activity of the company is provided in the directors' report. Information on the company's related party relationships is provided in Note 30.

Note 2 Basis of preparation and statement of compliance

The financial statements are general purpose financial statements which have been prepared in accordance with Australian Accounting Standards and Interpretations adopted by the Australian Accounting Standards Board (AASB) and the *Corporations Act 2001*. The financial statements comply with International Financial Reporting Standards (IFRS) adopted by the International Accounting Standards Board (IASB).

The financial statements have been prepared on an accrual and historical cost basis, except for certain properties, financial instruments, and equity financial assets that are measured at revalued amounts or fair values at the end of each reporting period.

The financial report is presented in Australian dollars and all values are rounded to the nearest dollar, unless otherwise stated.

These financial statements for the year ended 30 June 2021 were authorised for issue in accordance with a resolution of the directors on 17 September 2021.

Note 3 Changes in accounting policies, standards and interpretations

There are a number of amendments to accounting standards issued by the AASB that became mandatorily effective for accounting periods beginning on or after 1 July 2020, and are therefore relevant for the current financial year. The amendments did not have any impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

Note 4 Summary of significant accounting policies

The company has consistently applied the following accounting policies to all periods presented in these financial statements.

a) Revenue from contracts with customers

The company has entered into a franchise agreement with Bendigo Bank. The company delivers banking and financial services of Bendigo Bank to its community. The franchise agreement provides for a share of interest, fee, and commission revenue earned by the company. Interest margin share is based on a funds transfer pricing methodology which recognises that income is derived from deposits held, and that loans granted incur a funding cost. Fees are based on the company's current fee schedule and commissions are based on the agreements in place. All margin revenue is recorded as non-interest income when the company's right to receive the payment is established.

The company acts as an agent under the franchise agreement and revenue arises from the rendering of services through its franchise agreement.

Revenue is recognised on an accruals basis, at the fair value of consideration specified in the franchise agreement. Under AASB 15 *Revenue from Contracts with Customers* (AASB 15), revenue recognition for the company's revenue stream is as follows:

Note 4 Summary of significant accounting policies

a) Revenue from contracts with customers (continued)

<u>Revenue</u>	<u>Includes</u>	Performance obligation	Timing of recognition
Franchise	Margin,	When the company satisfies its	On completion of the provision of the
agreement	commission, and	obligation to arrange for the	relevant service. Revenue is accrued
profit share	fee income	services to be provided to the	monthly and paid within 10 business
		customer by the supplier (Bendigo	days after the end of each month.
		Bank as franchisor).	

All revenue is stated net of the amount of Goods and Services Tax (GST). There was no revenue from contracts with customers recognised over time during the financial year.

Revenue calculation

The franchise agreement provides that three forms of revenue may be earned by the company – margin, commission and fee income. Bendigo Bank decides the form of revenue the company earns on different types of products and services.

The revenue earned by the company is dependent on the business that it generates. It may also be affected by other factors, such as economic and local conditions, for example, interest rates.

Margin

Margin is arrived at through the following calculation:

- Interest paid by customers on loans less interest paid to customers on deposits
- plus any deposit returns i.e. interest return applied by Bendigo Bank for a deposit,
- minus any costs of funds i.e. interest applied by to fund a loan.

The company is entitled to a share of the margin earned by Bendigo Bank. If this reflects a loss, the company incurs a share of that loss.

Commission

Commission revenue is in the form of commission generated for products and services sold. This commission is recognised at a point in time which reflects when the company has fulfilled its performance obligation.

The company receives trailing commission for products and services sold. Ongoing trailing commission payments are recognised on receipt as there is insufficient detail readily available to estimate the most likely amount of income without a high probability of significant reversal in a subsequent reporting period. The receipt of ongoing trailing commission income is outside the control of the company, and is a significant judgement area.

Fee income

Fee income is a share of what is commonly referred to as 'bank fees and charges' charged to customers by Bendigo Bank Group entities including fees for loan applications and account transactions.

Core banking products

Bendigo Bank has identified some products and services as 'core banking products'. It may change the products and services which are identified as core banking products by giving the company at least 30 days notice. Core banking products currently include Bendigo Bank branded home loans, term deposits and at call deposits.

Note 4 Summary of significant accounting policies (continued)

a) Revenue from contracts with customers (continued)

Ability to change financial return

Under the franchise agreement, Bendigo Bank may change the form and amount of financial return the company receives. The reasons it may make a change include changes in industry or economic conditions or changes in the way Bendigo Bank earns revenue.

The change may be to the method of calculation of margin, the amount of margin, commission and fee income or a change of a margin to a commission or vice versa. This may affect the amount of revenue the company receives on a particular product or service

Bendigo Bank must not reduce the margin and commission the company receives on core banking products and services to less than 50% (on an aggregate basis) of Bendigo Bank's margin at that time. For other products and services, there is no restriction on the change Bendigo Bank may make.

b) Other revenue

The company's activities include the generation of income from sources other than the core products under the franchise agreement. Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and can be reliably measured.

Revenue	Revenue recognition policy
Dividend and distribution income	Dividend and distribution income is recognised when the right to receive the payment is established.
•	MDF income is recognised when the right to receive the payment is established. MDF income is discretionary and provided and receivable at month-end and paid within 14 days after month-end.
Cash flow boost	Cash flow boost income is recognised when the right to the payment is established (e.g. monthly or quarterly in the activity statement).
Other income	All other revenues that did not contain contracts with customers are recognised as goods and services are provided.

All revenue is stated net of the amount of Goods and Services Tax (GST).

Discretionary financial contributions

In addition to margin, commission and fee income, and separate from the franchise agreement, Bendigo Bank has also made MDF payments to the company.

The amount has been based on the volume of business attributed to a branch. The purpose of the discretionary payments is to assist with local market development activities, including community sponsorships and grants. It is for the board to decide how to use the MDF.

The payments from Bendigo Bank are discretionary and may change the amount or stop making them at any time. The company retains control over the funds, the funds are not refundable to Bendigo Bank.

Cash flow boost

In response to the COVID-19 outbreak, Boosting Cash Flow for Employers (Coronavirus Economic Response Package) Act 2020 (CFB Act) was enacted. The purpose was to provide temporary cash flow to small and medium sized businesses that employ staff and have been affected by the economic downturn associated with COVID-19.

The amounts received are in relation to amounts withheld as withholding tax reported in the activity statement. This essentially subsidises the company's obligation to remit withholding tax to the Australian Taxation Office. For reporting purposes, the amounts subsidised are recognised as revenue. The amounts are not assessable for tax purposes.

Note 4 Summary of significant accounting policies (continued)

c) Economic dependency - Bendigo Bank

The company has entered into a franchise agreement with Bendigo Bank that governs the management of the Community Bank.

The company is economically dependent on the ongoing receipt of income under the franchise agreement with Bendigo Bank. The directors have no reason to believe a new franchise arrangement under mutually acceptable terms will not be forthcoming following expiry.

The company operates as a franchisee of Bendigo Bank, using the name "Bendigo Bank" and the logo and system of operations of Bendigo Bank. The company manages the Community Bank on behalf of Bendigo Bank, however all transactions with customers conducted through the Community Bank are effectively conducted between the customers and Bendigo Bank.

All deposits are made with Bendigo Bank, and all personal and investment products are products of Bendigo Bank, with the company facilitating the provision of those products. All loans, leases or hire purchase transactions, issues of new credit or debit cards, temporary or bridging finance and any other transaction that involves creating a new debt, or increasing or changing the terms of an existing debt owed to Bendigo Bank, must be approved by Bendigo Bank. All credit transactions are made with Bendigo Bank, and all credit products are products of Bendigo Bank.

The company promotes and sells the products and services, but is not a party to the transaction.

The credit risk (i.e. the risk that a customer will not make repayments) is for the relevant Bendigo Bank entity to bear as long as the company has complied with the appropriate procedures and relevant obligations and has not exercised a discretion in granting or extending credit.

Bendigo Bank provides significant assistance in establishing and maintaining the Community Bank franchise operations. It also continues to provide ongoing management and operational support and other assistance and guidance in relation to all aspects of the franchise operation, including advice and assistance in relation to:

- the design, layout and fit out of the Community Bank premises
- training for the branch manager and other employees in banking, management systems and interface protocol
- methods and procedures for the sale of products and provision of services
- security and cash logistic controls
- calculation of company revenue and payment of many operating and administrative expenses
- the formulation and implementation of advertising and promotional programs
- sales techniques and proper customer relations.
- providing payroll services.

d) Employee benefits

Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for salary and wages where the employee has provided the service but payment has not yet occurred at the reporting date. They are measured at amounts expected to be paid, plus related on-costs. Non-accumulating sick leave is expensed when the leave is taken and measured at the rates paid or payable.

An annual leave liability is recognised for the amount expected to be paid if the company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be reliably estimated. The company's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as part of current trade and other payables in the statement of financial position. The company's obligations for employees' annual leave and long service leave entitlements are recognised in employee benefits in the statement of financial position.

Note 4 Summary of significant accounting policies (continued)

d) Employee benefits (continued)

Defined superannuation contribution plans

The company contributes to a defined contribution plan. Obligations for superannuation contributions to defined contribution plans are expensed as the related service is provided.

Other long-term employee benefits

The company's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior reporting periods.

That benefit is discounted to determine its present value. Consideration is given to expected future wage and salary levels plus related on-costs, experience of employee departures, and years of service achieved. Expected future payments are discounted using market yields at the reporting date on high quality corporate bonds with terms to maturity and currencies that match, as closely as possible, the estimated future cash outflows.

Remeasurements are recognised in profit or loss in the period in which they arise.

e) Taxes

Income tax expense comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to items recognised directly in equity or other comprehensive income.

Current income tax

Current tax assets and liabilities are measured at amounts expected to be recovered from or paid to the taxation authorities. It is calculated using tax rates and tax laws that have been enacted or substantively enacted by the reporting date.

Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax assets are recognised for all deductible temporary differences, carried-forward tax losses, and unused tax credits to the extent that it is probable that future taxable profits will be available against which they can be used.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

Deferred tax is measured at the rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date, and reflects uncertainty related to income taxes, if any.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax and when the balances relate to taxes levied by the same taxation authority and the entity intends to settle its tax assets and liabilities on a net basis.

Goods and Services Tax

Revenues, expenses and assets are recognised net of the amount of GST, except when the amount of GST incurred on a sale or purchase of assets or services is not payable to or recoverable from the taxation authority. In these circumstances, the GST is recognised as part of the cost of acquisition of the asset or as part of the revenue or expense item.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statement of financial position. Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

Cash flows are included in the statement of cash flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which are recoverable from, or payable to, the taxation authority is classified as part of operating cash flows.

Note 4 Summary of significant accounting policies (continued)

f) Cash and cash equivalents

For the purposes of the statement of financial position and statement of cash flows, cash and cash equivalents comprise cash on hand and deposits held with banks.

g) Property, plant and equipment

Items of property, plant and equipment are measured at cost or fair value as applicable, less accumulated depreciation. Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the company.

Depreciation is calculated to write-off the cost of items of property, plant and equipment less their estimated residual values using straight-line and diminishing value method over their estimated useful lives, and is recognised in profit or loss.

The estimated useful lives of property, plant and equipment for the current and comparative periods are as follows:

Asset class	<u>Method</u>	<u>Useful life</u>
Leasehold improvements	Diminishing value	6 to 15 years
Plant and equipment	Straight-line and diminishing value	1 to 10 years
Motor vehicles	Diminishing value	5 years

Depreciation methods, useful life, and residual values are reviewed at each reporting date and adjusted if appropriate.

h) Intangible assets

Intangible assets of the company relate to the franchise fees paid to Bendigo Bank which conveys the right to operate the Community Bank franchise.

Intangible assets are measured on initial recognition at cost. Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates.

The franchise fees paid by the company are amortised over their useful life and assessed for impairment whenever impairment indicators are present.

The estimated useful life and amortisation method for the current and comparative periods are as follows:

<u>Asset class</u>	<u>Method</u>	<u>Useful life</u>
Franchise fee	Straight-line	Over the franchise term (5 years)
Franchise renewal process fee	Straight-line	Over the franchise term (5 years)

Amortisation methods, useful life, and residual values are reviewed at each reporting date and adjusted if required.

i) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. The company's financial instruments include trade and other debtors and creditors, cash and cash equivalents and lease liabilities.

Trade receivables are initially recognised at the transaction price when they originated. All other financial assets and financial liabilities are initially measured at fair value plus, transaction costs (where applicable) when the company becomes a party to the contractual provisions of the instrument. These assets and liabilities are subsequently measured at amortised cost using the effective interest method.

Financial assets are derecognised where the contractual rights to receipt of cash flows expires or the rights are transferred to another party whereby the entity no longer has any significant continuing involvement in the risks and rewards associated with the asset. Financial liabilities are derecognised when its contractual obligations are discharged, cancelled, or expire. Any gain or loss on derecognision is recognised in profit or loss.

Note 4 Summary of significant accounting policies (continued)

i) Financial instruments (continued)

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the company currently has a legally enforceable right to set off the amounts and intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

j) Impairment

Non-derivative financial assets

Expected credit losses (ECL) are the probability-weighted estimate of credit losses over the expected life of a financial instrument. A credit loss is the difference between all contractual cash flows that are due and all cash flows expected to be received. At each reporting date, the entity recognises the movement in the ECL (if any) as an impairment gain or loss in the statement of profit or loss and other comprehensive income.

The company's trade receivables are limited to the monthly profit share distribution from Bendigo Bank, which is received 10 business days post month end. Due to the reliance on Bendigo Bank the company has reviewed credit ratings provided by Standard & Poors, Moody's and Fitch Ratings to determine the level of credit exposure to the company. The company also performed a historical assessment of receivables from Bendigo Bank and found no instances of default. As a result no ECL has been made in relation to trade receivables as at 30 June 2021.

Non-financial assets

At each reporting date, the company reviews the carrying amounts of its tangible and intangible assets that have an indefinite useful life to determine whether there is any indication those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any).

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised in profit or loss immediately.

k) Issued capital

Ordinary shares are recognised at the fair value of the consideration received by the company. Any transaction costs arising on the issue of ordinary shares are recognised directly in equity as a reduction of the share proceeds received.

I) Provisions

Provisions are recognised when the economic entity has a legal, equitable or constructive obligation to make a future sacrifice of economic benefits to other entities as a result of past transactions or other past events, it is probable that a future sacrifice of economic benefits will be required and a reliable estimate can be made of the amount of the obligation.

Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessment of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as a finance cost.

m) Leases

At inception of a contract, the company assesses whether a contract contains or is a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration and obtain substantially all the economic benefits from the use of that asset.

As a lessee

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the company's incremental borrowing rate.

The company determines its incremental borrowing rate by obtaining interest rates from funding sources and where necessary makes certain adjustments to reflect the terms of the lease and type of asset leased.

Lease payments included in the measurement of the lease liability comprise fixed or variable lease payments that depend on an index or rate and lease payments in a renewal option if the company is reasonably certain to exercise that option. For leases of property the company has elected not to separate lease and non-lease components when calculating the lease liability.

Note 4 Summary of significant accounting policies (continued)

m) Leases (continued)

As a lessee (continued)

The lease liability is remeasured when there is a change in future lease payments arising from a change in an index or rate, if the company changes its assessment of whether it will exercise an extension option or if there is a revised in-substance fixed lease payment.

The company assesses at the lease commencement date whether it is reasonably certain to exercise extension options. The company reassesses whether it is reasonably certain to exercise the options if there is a significant event or significant change in circumstances within its control.

Where the company is a lessee for the premises to conduct its business, extension options are included in the lease term except when the company is reasonably certain not to exercise the extension option. This is due to the significant disruption of relocating premises and the loss on disposal of leasehold improvements fitted out in the demised leased premises.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

Short-term leases and leases of low-value assets

The company has elected not to recognise right-of-use assets and lease liabilities for leases of short-term leases and low-value assets, including IT equipment. The company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

A short-term lease is a lease that, at commencement date, has a lease term of 12 months or less.

Note 5 Significant accounting judgements, estimates, and assumptions

In preparing these financial statements, management has made judgements and estimates that affect the application of the company's accounting policies and the reported amounts of assets, liabilities, income, and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

a) Judgements

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognised in the financial statements is included in the following notes:

<u>Note</u>	<u>Judgement</u>
- Note 21 - leases:	
a) control	 a) whether a contract is or contains a lease at inception by assessing whether the company has the right to control the use of the identified asset for a period of time in exchange for consideration and obtain substantially all the economic benefits from the use of that asset;
b) lease term	 whether the company is reasonably certain to exercise extension options, termination periods, and purchase options;

Note 5 Significant accounting judgements, estimates, and assumptions (continued)

a) Judgements (continued)

<u>Note</u>			<u>Judgement</u>				
	c)	discount rates	c)	judgement is required to determine the discount rate, where the discount rate is the company's incremental borrowing rate if the rate implicit in the lease cannot be readily determined. The incremental borrowing rate is determined with reference to factors specific to the company and underlying asset including the amount, the lease term, economic environment and other relevant factors.			

b) Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties at 30 June 2021 that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities in the next financial year is included in the following notes:

	<u>Note</u>	<u>Assumptions</u>
-	Note 19 - recognition of deferred tax assets	availability of future taxable profit against which deductible temporary differences and carried-forward tax losses can be utilised;
-	Note 16 - estimation of useful lives of assets	key assumptions on historical experience and the condition of the asset;
-	Note 23 - long service leave provision	key assumptions on attrition rate and pay increases though promotion and inflation;
-	Note 22 - make-good provision	key assumptions on future cost estimates in restoring the leased premises in accordance with the lease agreement.

Note 6 Financial risk management

The company has exposure to credit, liquidity and market risk arising from financial instruments. The company's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the company. The company does not use derivative instruments.

Risk management is carried out directly by the board of directors.

a) Credit risk

Credit risk is the risk of financial loss to the company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the company's receivables from customers.

The company's franchise agreement limits the company's credit exposure to one financial institution, being Bendigo Bank. The company monitors credit worthiness through review of credit ratings of the bank.

b) Liquidity risk

Liquidity risk is the risk that the company will encounter difficulty in meeting the obligations associated with its financial liabilities. The company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the company's reputation.

Exposure to liquidity risk

The following are the remaining contractual maturities of financial liabilities. The contractual cash flows amounts are gross and undiscounted.

Note 6 Financial risk management (continued)

b) Liquidity risk (continued)

30 June 2021

30 June 2021

Lease liabilities	84,038	17,887	60,851	17,284
Trade payables	27,443	27,443	-	-
	111,481	45,330	60,851	17,284

c) Market risk

Market risk

Market risk is the risk that changes in market prices - e.g. foreign exchange rates, interest rates, and equity prices - will affect the company's income or the value of its holdings in financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

The company has no exposure to any transactions denominated in a currency other than Australian dollars.

Price risk

The primary goal of the company's investment in equity securities is to hold the investments for the long term for strategic purposes.

Sensitivity analysis - equity price risk

All of the company's listed equity investments are listed on the Australian Stock Exchange (ASX).

	2021 \$ 10% increase 10% decrease		2020 \$		
			10% increase	10% decrease	
Managed investments	28,493	(28,493)	24,689	(24,689)	

Cash flow and fair value interest rate risk

Interest-bearing assets and liabilities are held with Bendigo Bank and subject to movements in market interest. Interest-rate risk could also arise from long-term borrowings. Borrowings issued at variable rates expose the company to cash flow interest-rate

The company held cash and cash equivalents of \$394,605 at 30 June 2021 (2020: \$365,373). The cash and cash equivalents are held with Bendigo Bank, which are rated BBB+ on Standard & Poor's credit ratings.

Note 7 Capital management

The board's policy is to maintain a strong capital base so as to sustain future development of the company. The board of directors monitors the return on capital and the level of distributions to shareholders. Capital is represented by total equity as recorded in the statement of financial position.

In accordance with the franchise agreement, in any 12 month period the funds distributed to shareholders shall not exceed the distribution limit.

The distribution limit is the greater of:

- (a) 20% of the profit or funds of the company otherwise available for distribution to shareholders in that 12 month period; and
- (b) subject to the availability of distributable profits, the relevant rate of return multiplied by the average level of share capital of the company over that 12 month period where the relevant rate of return is equal to the weighted average interest rate on 90 day bank bills over that 12 month period plus 5%.

The board is managing the growth of the business in line with this requirement. There are no other externally imposed capital requirements, although the nature of the company is such that amounts will be paid in the form of charitable donations and sponsorship. Charitable donations and sponsorship paid for the year ended 30 June 2021 can be seen in the statement of profit or loss and other comprehensive Income.

There were no changes in the company's approach to capital management during the year.

Finance costs are recognised as expenses when incurred using the effective interest rate.

c) Charitable donations, sponsorship, advertising and promotion

The overarching philosophy of the Community Bank model, is to support the local community in which the company operates. This is achieved by circulating the flow of financial capital into the local economy through community contributions (such as donations and grants).

		Note	2021 \$	2020 \$
-	Direct sponsorship, advertising, and promotion payments Contribution to the Community Enterprise Foundation™	11d)	12,500 68.421	66,973 52,632

Following the adoption of AASB 16 in the previous financial year, the company now groups its leased assets previously recognised in 'property, plant and equipment' in 'right-of-use assets'.

c) Changes in estimates

During the financial year, the company assessed estimates used for property, plant and equipment including useful lives, residual values, and depreciation methods. There were no changes in estimates for the current reporting period.

Note 20 Trade creditors and other payables

Where the company is liable to settle an amount within 12 months of reporting date, the liability is classified as current. All other obligations are classified as non-current.

a) Current liabilities	2021 \$	2020 \$
Trade creditors	7,938	890
Other creditors and accruals	25,009	26,553
	32,947	27,443

Note 21 Lease liabilities

Lease liabilities were measured at amounts equal to the present value of enforceable future payments of the term reasonably expected to be exercised, discounted at the appropriate incremental borrowing rate on the adoption date. The discount rate used on recognition was 4.79%.

The company has applied judgement in estimating the remaining lease term including the effects of any extension options reasonably expected to be exercised, applying hindsight where appropriate.

The company's lease portfolio includes:

-	Beaufort branch premises	The lease agreement commenced in February 2007. A 5 year renewal option was exercised
		in February 2017. The company has 1 x 5 year renewal option available which for AASB 16:
		Leases purposes they are reasonably certain to exercise. As such, the lease term end date
		used in the calculation of the lease liability is January 2027.

- Motor vehicle The lease agreement is a non-cancellable term of 4 years commencing January 2019. The lease includes a balloon payment at which time the registered security over the motor vehicle is removed.

a) Current lease liabilities	2021 \$	2020 \$
Property lease liabilities Unexpired interest	11,156 (2,423)	10,916 (2,770)

- Not later than 12 months	18,127	17,887
- Between 12 months and 5 years	54,841	60,851
- Greater than 5 years	6,508	17,284
Total undiscounted lease payments	79,476	96,022
Unexpired interest	(8,536)	(11,984)
Present value of lease liabilities	70,940	84,038
Note 22 Provisions		
a) Non-current liabilities	2021	2020
	\$	\$
Make-good on leased premises	33,310	31,756

In accordance with the branch lease agreement, the company must restore the leased premises to the original condition before the expiry of the lease term. The company has estimated the provision as at \$43,500 based on experience and consideration of the expected future costs to remove all fittings and the ATM as well as cost to remedy any damages caused during the removal process. The lease is due to expire on January 2027 at which time it is expected the face-value costs to restore the premises will fall due.

Note 23 Employee benefits		
a) Current liabilities	2021 \$	2020 \$
Provision for annual leave	26,637	26,219
Provision for long service leave	14,111	15,538
	40,748	41,757
b) Non-current liabilities		
Provision for long service leave	1,456	923

Note 23 Employee benefits (continued)

c) Key judgement and assumptions

The company uses historical employee attrition rates in determining the probability of an employee, at a given date, achieving continuous employment eligible for entitlement in accordance with long service leave legislation.

In the absence of sufficient historical employee attrition rates, the company applies a benchmark probability rate from across the Community Bank network to factor in estimating the probability of an employee, at a given date, achieving continuous employment eligible for entitlement in accordance with legislation.

Note 24 Issued capital					
a) Issued capital	tal 2021		2020		
	Number	\$	Number	\$	
Ordinary shares - fully paid	430,440	430,440	430,440	430,440	

b) Rights attached to issued capital

Ordinary shares

Voting rights

Subject to some limited exceptions, each member has the right to vote at a general meeting.

On a show of hands or a poll, each member attending the meeting (whether they are attending the meeting in person or by attorney, corporate representative or proxy) has one vote, regardless of the number of shares held. However, where a person attends a meeting in person and is entitled to vote in more than one capacity (for example, the person is a member and has also been appointed as proxy for another member) that person may only exercise one vote on a show of hands. On a poll, that person may exercise one vote as a member and one vote for each other member that person represents as duly appointed attorney, corporate representative or proxy.

The purpose of giving each member only one vote, regardless of the number of shares held, is to reflect the nature of the company as a community based company, by providing that all members of the community who have contributed to the establishment and ongoing operation of the Community Bank branch have the same ability to influence the operation of the company.

Dividends

Generally, dividends are payable to members in proportion to the amount of the share capital paid up on the shares held by them, subject to any special rights and restrictions for the time being attaching to shares. The franchise agreement with Bendigo Bank contains a limit on the level of profits or funds that may be distributed to shareholders. There is also a restriction on the payment of dividends to certain shareholders if they have a prohibited shareholding interest (see below).

<u>Transfer</u>

Generally, ordinary shares are freely transferable. However, the directors have a discretion to refuse to register a transfer of shares.

Subject to the foregoing, shareholders may transfer shares by a proper transfer effected in accordance with the company's constitution and the *Corporations Act 2001*.

Prohibited shareholding interest

A person must not have a prohibited shareholding interest in the company.

In summary, a person has a prohibited shareholding interest if any of the following applies:

- They control or own 10% or more of the shares in the company (the "10% limit").
- In the opinion of the board they do not have a close connection to the community or communities in which the company predominantly carries on business (the "close connection test").
- Where the person is a shareholder, after the transfer of shares in the company to that person the number of shareholders in the company is (or would be) lower than the base number (the "base number test"). The base number is 258. As at the date of this report, the company had 285 shareholders (2020: 285 shareholders).

Note 24 Issued capital (continued)

Prohibited shareholding interest (continued)

As with voting rights, the purpose of this prohibited shareholding provision is to reflect the community-based nature of the company.

Where a person has a prohibited shareholding interest, the voting and dividend rights attaching to the shares in which the person (and his or her associates) have a prohibited shareholding interest, are suspended.

The board has the power to request information from a person who has (or is suspected by the board of having) a legal or beneficial interest in any shares in the company or any voting power in the company, for the purpose of determining whether a person has a prohibited shareholding interest. If the board becomes aware that a member has a prohibited shareholding interest, it must serve a notice requiring the member (or the member's associate) to dispose of the number of shares the board considers necessary to remedy the breach. If a person fails to comply with such a notice within a specified period (that must be between three and six months), the board is authorised to sell the specified shares on behalf of that person. The holder will be entitled to the consideration from the sale of the shares, less any expenses incurred by the board in selling or otherwise dealing with those shares.

In the constitution, members acknowledge and recognise that the exercise of the powers given to the board may cause considerable disadvantage to individual members, but that such a result may be necessary to enforce the prohibition.

Note 25 Reserves

a) Nature and purpose of reserves

The fair value reserve comprises the cumulative net change in the fair value of equity securities designated at FVTOCI.

b) Disaggregation of reserve balances, net of tax

Note 30 Related parties

a) Details of key management personnel

The directors of the company during the financial year were:

Alan Thomas McCartney
Robert John Byrne
Simone Victoria Annette Hutchings
Pamela Margaret Sandlant
Catherine Jane Goninon
Gary Ian Knight
Greg Walton
Christina Drummond
Timothy George Chandler

b) Key management personnel compensation

No director of the company receives remuneration for services as a company director or committee member.

There are no executives within the company whose remuneration is required to be disclosed.

c) Related party transactions

Transactions between related parties are on normal commercial terms and conditions no more favourable than those available to other parties unless otherwise stated.

Transactions with related parties	2021 \$	2020 \$
 Director Catherine Goninon, as co-owner of Mountainside Wines, provided catering services for the company's Christmas function. Total benefit received (including GST) was: Company Secretary Lynne Dickman, as owner of El Dee Catering, provided catering 	585	-
services for the company's Christmas function. Total benefit received was:	728	-
Total transactions with related parties	1,313	-

Note 31 Dividends provided for or paid

a) Dividends provided for and paid during the period

The following dividends were provided for and paid to shareholders during the reporting period as presented in the Statement of Changes in Equity and Statement of Cash Flows.

	30 June 2021		30 June 2020	
	Cents	\$	Cents	\$
Fully franked dividend	6.5	27,979	6.5	27,979

The tax rate at which dividends have been franked is 26% (2020: 27.5%).

Note 31 Dividends provided for or paid (continued)		
b) Franking account balance	2021 \$	2020 \$
Franking credits available for subsequent reporting periods		
Franking account balance at the beginning of the financial year	193,888	172,715
Franking transactions during the financial year:		
- Franking credits (debits) arising from income taxes paid (refunded)	9,444	31,786
- Franking debits from the payment of franked distributions	(9,830)	(10,613)
Franking account balance at the end of the financial year	193,502	193,888
Franking transactions that will arise subsequent to the financial year end:		
- Franking credits (debits) that will arise from payment (refund) of income tax	(6,744)	(11,089)
Franking credits available for future reporting periods	186,758	182,799

The ability to utilise franking credits is dependent upon the company's ability to declare dividends. The tax rate at which future dividends will be franked is 25%.

Note 32 Earnings per share

a) Basic and diluted earnings per share

The calculation of basic and diluted earnings per share has been based on the following profit attributable to ordinary shareholders and weighted-average number of ordinary shares outstanding.

	2021 \$	2020 \$
Profit attributable to ordinary shareholders	42,187	74,902
	Number	Number
Weighted-average number of ordinary shares	430,440	430,440
	Cents	Cents
Basic and diluted earnings per share	9.80	17.40

Note 33 Commitments

The company has no commitments contracted for which would be provided for in future reporting periods.

Note 34 Contingencies

There were no contingent liabilities or contingent assets at the date of this report to affect the financial statements.

Note 35 Subsequent events

There have been no significant events occurring after the reporting period which may affect either the company's operations or the results of those operations or the company's state of affairs.

Directors' declaration

In accordance with a resolution of the directors of Beaufort Community Financial Services Limited, we state that:

In the opinion of the directors:

- (a) the financial statements and notes of the company are in accordance with the Corporations Act 2001, including:
 - (i) giving a true and fair view of the company's financial position as at 30 June 2021 and of its performance for the financial year ended on that date; and
 - (ii) complying with Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements; and
- (b) there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the board of directors.

Alan Thomas McCartney, Chair

Dated this 17th day of September 2021

Independent audit report

Independent Auditor's Report To the Directors of Beaufort Community Financial Services Limited

Opinion

We have audited the financial report of Beaufort Community Financial Services Limited (the Company), which comprises the statement of financial position as at 30 June 2021, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of the Company is in accordance with the Corporations Act 2001, including:

- giving a true and fair view of the Company's financial position as at 30 June 2021 and of its financial performance for the year ended; and
- (ii) complying with Australian Accounting Standards and the Corporations Regulations 2001.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's *APES 110 Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the Directors of the Company, would be in the same terms if given to the Directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Directors for the Financial Report

The Directors of the Company are responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards and the *Corporations Act 2001*, and for such internal control as the Directors determines is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report.

Independent Auditor's Report To the Directors of Beaufort Community Financial Services Limited

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and
 perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to
 provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for
 one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the
 override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate
 in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal
 control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of the Director's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether
 the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
