Chairman Report

The Bright Bendigo bank is your community bank and in the three and a half years, we have reached the \$38m mark of business growth. We are close to the break-even position, which will mean that we will be in a position to reward shareholders and will be able to provide an increasing amount of funds to support the Bright Community. The Bendigo community bank model provided for 80% of our net profit to be used for

community purposes.

These funds provide a great opportunity to assist our community. Whilst the Board has set up a Sponsorship and Marketing Committee to review sponsorship application each month, I am looking to the community for ideas & suggestions on how we might use further funds for our communities benefit. We have already developed work-

ing relationships with several community groups to provide them with funds over several years. This allows them to plan for several years without worrying or having to make yearly applications to us.

However, in order to achieve these community goals we need the community support to further grow our business.

Geoff Tually—Board Chairman

Community Involvements - Community Bowls

For the last 8 weeks the staff at Bright Community Bank have participated in the Bright Community bowls tournament on a Wednesday evening. There are 36 teams in the competition. This is our 4th year of competition and we usually finish in the "middle of the pack".

Community bowls is a great event which brings various groups of people and clubs together for an enjoyable evening with a few drinks and plenty of laughs.

All this wouldn't be possible without the support and organisation by the Bright bowls

club and it's sponsors.

We look forward to the event every year and never have trouble filling a team.
