Chair's report

For year ending 30 June 2024

Welcome to the 2024 Annual Report.

Our Board operates a franchise banking business under the Bendigo Bank banner to make profit for reinvesting back into the local Buninyong

community. Our strategic vision is to build "a thriving, resilient and inclusive Buninyong and district". Our strategy is that we connect organisations and people in order to facilitate constructive conversations around leveraging the resources of our community partners.

Our leadership is recognised and rewarded by the growth and trust of our customers.

The tough economic conditions that prevailed throughout the 2023/2024 financial year challenged our business tremendously. Margin reduction impacted income levels and a general uncertainty around the direction of the RBA cash rate drove a change in consumer behaviours away from lending

into refinancing. We saw a drop in income levels of 8.9% and a reduction in profit before community investment by 28.7%. Pleasingly, we delivered on our mission to build community with a 45% increase in our community contributions to a level of \$345k despite the dip in profit.

The company total equity has grown to \$1,637,798 for the 691,838 issued shares of \$1 each. This reflects the value of the Buninyong business itself as it has grown significantly. The historic share price trading level has never seen it rise much past its original issued value of \$1, however the asset backing per share reflects its value based on current returns at a price in excess of \$2.30.

The Community Bank staff should be commended for their outstanding service delivery and for leading the region in growth through both deposits and lending. Customer numbers increased by 2.33% and total portfolio increased by 6.6%. The incremental growth was negatively impacted by a squeeze on margin this year but the business platform continues to grow and remains strong.

Chair's report (continued)

Community Investment:

We continue to deliver on our strategic mission to Connect, Facilitate and Leverage in order to build community. We truly live our role of a leadership organisation and deliver our promise of a meaningful source of leadership, innovation and community capital.

Through our very hard-working Partnerships Lead in Kelly Bevan, we have built a very strategic platform of community capacity building through partnering with community groups to build skills, knowledge, and confidence. Our aim is that all of our community organisations become sustainable, successful and impactful.

Our impact through compassionate investments into community projects and programmes feeds into our vision of building a thriving and resilient community. We partnered with leadership organisations to build youth resilience through funding personal development, mental health wellbeing, leadership and other such courses that feed into the long-term health and wellbeing of our future community leaders.

I highly recommend every shareholder takes the time to visit our website www.communitygrowshere.com.au to read the articles on Story Bank describing the wonderful work of our hard-working Board and staff.

Board and Community Bank highlights

We said good-bye to Charlotte Steckyj who moved to Melbourne for family reasons and welcomed Nichole Howard. Her role as Customer Relationship Officer is a strategic decision to build personal lending capacity and capability in our Community Bank team to better support our customer's needs.

The Board said good-bye to Brendan Allan to focus on the growing needs of his family and business career.

I wish to thank all our hard-working directors who very diligently work to deliver our vision of "building a thriving, resilient and inclusive Buninyong & District". We demonstrate our commitment to our vision through our deep dedication to employing our company strategy to "connect individuals and organisations and facilitate the conversations that enable us to leverage the resources of our community partners" in every aspect of our decision making.

I look forward with much excitement to another year of making meaningful impact into our wonderful community.

Manager's report

For year ending 30 June 2024

As I prepare for this year's report, I find myself pondering who will read this and what does the reader want to know? I suspect the answer is shareholders who want to know that their investment in our company is meeting their expectations.

The first expectation is that the company is living its purpose, which it certainly is. The Chairman's report will address this higher calling and how we are contributing to the growth and prosperity of our community.

The next expectation is that we are well-managed and growing the business. Well, I think I'm pretty good and the numbers don't lie. Despite more and more banking moving to brokers and online banks, our little branch has held its own by growing our portfolio another \$18 million in the financial year, exceeding our \$10 million budget. We are working towards continuing to grow our total portfolio in FY2024-25 to exceed \$300,000,000.

We have once again delivered a strong profit, although despite growing our portfolio, our total income has declined due to squeezing of the interest margins. Although the last few months of the financial year have seen margins steady giving us some confidence in our next year's budget.

Within the branch we said farewell to Charlotte, who moved across state, but welcomed Nikki, who has joined our team and has already had a positive impact on staff and customers. I would like to take this opportunity to thank all our staff for putting the customer first and contributing to our sensational customer satisfaction survey score of 4.95 out of 5.

I'd also like to thank the Board for their direction, insight, and wisdom in ensuring that we are resourced for growth. We are in good hands.

Finally, I'd like to thank our customers for their support and spreading the word about our service, products and purpose. A winning combination that can't be beaten.

Notes to the financial statements

For the year ended 30 June 2024

These financial statements and notes represent those of Buninyong & District Financial Services Limited.

Buninyong & District Financial Services Limited ('the company') is a company limited by shares, incorporated and domiciled in Australia.

The financial statements were authorised for issue by the Directors on the 23rd 10, 2024.

1. Summary of significant accounting policies

(a) Basis of preparation

These general purpose financial statements have been prepared in accordance with the *Corporations Act 2001*, Australian Accounting Standards and Interpretations of the Australian Accounting Standards Board and International Financial Reporting Standards as issued by the International Accounting Standards Board. The company is a for profit entity for financial reporting purposes under Australian Accounting Standards. Material accounting policies adopted in the preparation of these financial statements are presented below and have been consistently applied unless stated otherwise.

The financial statements, except for cash flow information, have been prepared on an accruals basis and are based on historical costs, modified, where applicable, by the measurement at fair value of selected non current assets, financial assets and financial liabilities.

Economic dependency

The company has entered into a franchise agreement with Bendigo and Adelaide Bank Limited that governs the management of the **Community Bank®** branch at Buninyong.

The branch operates as a franchise of Bendigo and Adelaide Bank Limited, using the name "Bendigo Bank" and the logo and system of operations of Bendigo and Adelaide Bank Limited. The company manages the **Community Bank®** branch on behalf of Bendigo and Adelaide Bank Limited, however all transactions with customers conducted through the **Community Bank®** branch are effectively conducted between the customers and Bendigo and Adelaide Bank Limited.

All deposits are made with Bendigo and Adelaide Bank Limited, and all personal and investment products are products of Bendigo and Adelaide Bank Limited, with the company facilitating the provision of those products. All loans, leases or hire purchase transactions, issues of new credit or debit cards, temporary or bridging finance and any other transaction that involves creating a new debt, or increasing or changing the terms of an existing debt owed to Bendigo and Adelaide Bank Limited, must be approved by Bendigo and Adelaide Bank Limited. All credit transactions are made with Bendigo and Adelaide Bank Limited, and all credit products are products of Bendigo and Adelaide Bank Limited.

Bendigo and Adelaide Bank Limited provides significant assistance in establishing and maintaining the **Community Bank®** branch franchise operations. It also continues to provide ongoing management and operational support, and other assistance and guidance in relation to all aspects of the franchise operation, including advice in relation to:

- Advice and assistance in relation to the design, layout and fit out of the **Community Bank®** branch;
- Training for the Branch Managers and other employees in banking, management systems and interface protocol;
- Methods and procedures for the sale of products and provision of services;
- Security and cash logistic controls;
- Calculation of company revenue and payment of many operating and administrative expenses;
- The formulation and implementation of advertising and promotional programs; and
- Sale techniques and proper customer relations.

(b) Income tax

The income tax expense / (income) for the year comprises current income tax expense / (income) and deferred tax expense / (income).

Current income tax expense charged to profit or loss is the tax payable on taxable income. Current tax liabilities/assets are measured at the amounts expected to be paid to/(recovered from) the relevant taxation authority.

Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the year as well as unused tax losses.

Notes to the financial statements (continued)

1. Summary of significant accounting policies (continued)

(b) Income tax (continued)

Current and deferred income tax expense/(income) is charged or credited outside profit or loss when the tax relates to items that are recognised outside profit or loss.

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled.

(c) Fair value of assets and liabilities

The company may measure some of its assets and liabilities at fair value on either a recurring or non-recurring basis, depending on the requirements of the applicable Accounting Standard.

Fair value is the price the company would receive to sell an asset or would have to pay to transfer a liability in an orderly (ie unforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset or liability. The fair value of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

To the extent possible, market information is extracted from either the principal market for the asset or liability (ie the market with the greatest volume and level of activity for the asset or liability) or, in the absence of such a market, the most advantageous market available to the entity at the end of the reporting period (ie the market that maximises the receipts from the sale of the asset or minimises the payments made to transfer the liability, after taking into account transaction costs and transport costs).

For non-financial assets, the fair value measurement also takes into account a market participant's ability to use the asset in its highest and best use or to sell it to another market participant that would use the asset in its highest and best use.

(d) Property, plant and equipment

Land & Buildings

Freehold land and buildings are carried at their fair value (refer note 1 (c)), based on periodic, but at least triennial, valuations by external independent valuers, less accumulated depreciation for buildings.

Increases in the carrying amount arising on revaluation of land and buildings are credited to a revaluation surplus in equity. Decreases that offset previous increases of the same asset are recognised against revaluation surplus directly in equity; all other decreases are recognised in profit or loss.

Any accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset.

The carrying amount of land and buildings is reviewed annually by Directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the asset's employment and subsequent disposal.

Plant & Equipment

The depreciable amount of all fixed assets, excluding freehold land and buildings, is depreciated on a straight-line basis over the asset's useful life to the company commencing from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements.

The depreciation rates used for each class of depreciable asset are:

| <i>Class of Asset</i> | <i>Rate</i> | <i>Method</i> |
|------------------------|-------------|---------------|
| Buildings | 2.5% | SL |
| Leasehold Improvements | 6.7% | SL |
| Plant & equipment | 10-33% | SL |

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An assets' carrying amount is written down immediately to its recoverable amount if the assets' carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are recognised in profit or loss in the period in which they arise. When revalued assets are sold, amounts included in the revaluation surplus relating to that asset are transferred to retained earnings.

(e) Leases

Leases of fixed assets, where substantially all the risks and benefits incidental to the ownership of the asset - but not the legal ownership - are transferred to the company, are classified as finance leases.

Finance leases are capitalised by recognising an asset and a liability at the lower of the amounts equal to the fair value of the leased property or the present value of the minimum lease payments, including any guaranteed residual values. Lease payments are allocated between the reduction of the lease liability and the lease interest expense for the period.

Leased assets are depreciated on a straight-line basis over the shorter of their estimated useful lives or the lease term.

Lease payments for operating leases, where substantially all the risks and benefits remain with the lessor, are recognised as expenses in the periods in which they are incurred.

Buninyong & District Financial Services Limited has leases for the main retail premises. This lease is reflected in the Balance Sheet as a right-of-use asset and a lease liability.

(f) Impairment of assets

At each reporting period, the company assesses whether there is any indication that an asset may be impaired. If such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of the asset, being the higher of the asset's fair value less cost to sell and value in use, to the asset's carrying amount. Any excess of the asset's carrying amount over its recoverable amount is recognised immediately in profit or loss, unless the asset is carried at a revalued amount in accordance with another Standard. Any impairment loss of a revalued asset is treated as a revaluation decrease in accordance with the relevant Standard.

(g) Goods and services tax

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with other receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows included in receipts from customers or payments to suppliers.

(h) Employee benefits

Short-term employee benefits

Provision is made for the company's obligation for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The liability for annual leave is recognised in the provision for employee benefits. All other short term employee benefit obligations are presented as payables.

Other long-term employee benefits

Provision is made for employees' long service leave and annual leave entitlements not expected to be settled wholly within 12 months after the end of the annual reporting period in which the employees render the related service. Other long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurement for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The company's obligation for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the company does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

(i) Intangible assets and franchise fees

Franchise renewal costs have been initially recorded at cost and amortised on a straight line basis at a rate of 20% per annum. The current amortisation charges for intangible assets are included under depreciation and amortisation expense per the Statement of Profit or Loss and Other Comprehensive Income.

(j) Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits available on demand with banks, other short-term highly liquid investments with original maturities of six months or less, and bank overdrafts. Bank overdrafts are reported within short-term borrowings in current liabilities in the statement of financial position.

For the purposes of the statement of cash flows, cash includes cash on hand and in banks and investments in money market instruments, net of outstanding bank overdrafts.

Notes to the financial statements (continued)

1. Summary of significant accounting policies (continued)

(k) Revenue and other income

Revenue is measured at the fair value of the consideration received or receivable after taking into account any trade discounts and volume rebates allowed. Revenue comprises service commissions and other income received by the company.

Interest and fee revenue is recognised when earned.

All revenue is stated net of the amount of goods and services tax (GST).

(l) Trade and other receivables

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost, less any provision for doubtful debts. Trade and other receivables are due for settlement usually no more than 30 days from the date of recognition.

Collectability of trade and other receivables is reviewed on an ongoing basis. Debts, which are known to be uncollectable, are written off. A provision for doubtful debts is established when there is objective evidence that the company will not be able to collect all amounts due according to the original terms of receivables. The amount of the provision is the difference between the assets carrying amount and the present value of estimated cash flows, discounted at the effective interest rate. The amount of the provision is recognised on profit or loss.

(m) Trade and other payables

Trade and other payables represent the liabilities for goods and services received by the entity that remain unpaid at the end of the reporting period. The balance is recognised as a current liability with the amounts normally paid within 30 days of recognition of the liability.

(n) Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method.

(o) Contributed equity

Issued and paid up capital is recognised at the fair value of the consideration received by the company. Any transaction costs arising on the issue of ordinary shares are recognised directly in equity as a reduction of the share proceeds received.

(p) New and amended accounting policies adopted by the company

There are no new and amended accounting policies that have been adopted by the company this financial year.

(q) Comparative figures

When required by Accounting Standards comparative figures have been adjusted to conform to changes in presentation for the current financial year.

(r) Earnings per share

Basic earnings per share

Basic earnings per share is calculated by dividing the profit or loss attributable to owners of the company, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the year, adjusted for bonus elements in ordinary shares issued during the year.

(s) New accounting standards for application in future periods

The company has decided not to early adopt any of the new and amended pronouncements. The company's assessment of the new and amended pronouncements that are relevant to the company but applicable in the future reporting periods is set below:

(t) Critical accounting estimates and judgements

The Directors evaluate estimates and judgements incorporated into the financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the company. Estimates and judgements are reviewed on an ongoing basis. Revision to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected. The estimates and judgements that have a significant risk of causing material adjustments to the carrying values of assets and liabilities are as follows:

Estimation of useful lives of assets

The company determines the estimated useful lives and related depreciation and amortisation charges for its property, plant and equipment and intangible assets. The depreciation and amortisation charge will increase where useful lives are less than previously estimated lives.

Fair value assessment of non-current physical assets

The AASB 13 Fair Value standard requires fair value assessments that may involved both complex and significant judgement and experts. The value of land and buildings may be materially misstated and potential classification and disclosure risks may occur.

Employee benefits provision

Assumptions are required for wage growth and CPI movements. The likelihood of employees reaching unconditional service is estimated. The timing of when employee benefit obligations are to be settled is also estimated.

Income tax

The company is subject to income tax. Significant judgement is required in determining the deferred tax asset. Deferred tax assets are recognised only when it is considered sufficient future profits will be generated. The assumptions made regarding future profits is based on the company's assessment of future cash flows.

Impairment

The company assesses impairment at the end of each reporting period by evaluating conditions and events specific to the company that may be indicative of impairment triggers. Recoverable amounts of relevant assets are reassessed using value in use calculations which incorporate various key assumptions.

The main source of credit risk relates to a concentration of trade receivables owing by Bendigo and Adelaide Bank Limited, which is the source of the majority of the company's income.

The following table details the company's trade and other receivables exposed to credit risk (prior to collateral and other credit enhancements) with ageing analysis and impairment provided for thereon. Amounts are considered as "past due" when the debt has not been settled within the terms and conditions agreed between the company and the customer or counterparty to the transaction. Receivables that are past due are assessed for impairment by ascertaining solvency of the debtors and are provided for where there are specific circumstances indicating that the debt may not be fully repaid to the company.

Ordinary shares participate in dividends and the proceeds on winding up of the company in proportion to the number of shares held. At the shareholders' meetings each shareholder is entitled to one vote when a poll is called, or on a show of hands. The company does not have authorised capital or par value in respect of its issued shares. All issued shares are fully paid. All shares rank equally with regard to the company's residual assets.

Capital management

In accordance with the franchise agreement, in any 12 month period, the funds distributed to shareholders shall not exceed the Distribution Limit.

- (i) the Distribution Limit is the greater of:
 - (a) 20% of the profit or funds of the Franchisee otherwise available for distribution to shareholders in that 12 month period; and
 - (b) subject to the availability of distributable profits, the Relevant Rate of Return multiplied by the average level of share capital of the Franchisee over that 12 month period; and
- (ii) the Relevant Rate of Return is equal to the weighted average interest rate on 90 day bank bills over that 12 month period plus 5%.

The Board is managing the growth of the business in line with this requirement. There are no other externally imposed capital requirements, although the nature of the company is such that amounts will be paid in the form of charitable donations and sponsorship. Charitable donations and sponsorship paid for the year ended 30 June 2024 can be seen in the Statement of Profit or Loss and Comprehensive Income.

There were no changes in the company's approach to capital management during the year.

Notes to the financial statements (continued)

25. Financial risk management

Financial risk management policies

The Board of Directors has overall responsibility for the establishment and oversight of the risk management framework. The Board has established an Audit Committee which reports regularly to the Board. The Audit Committee is assisted in the area of risk management by an internal audit function.

Specific financial risk exposure and management

The main risks the company is exposed to through its financial instruments are credit risk, liquidity risk and market risk consisting of interest rate risk, foreign currency risk and other price risk. There have been no substantial changes in the types of risks the company is exposed to, how the risks arise, or the Board's objectives, policies and processes for managing or measuring the risks from the previous period.

The company's financial instruments consist mainly of deposits with banks, account receivables and payables, bank overdraft and loans. The totals for each category of financial instruments measured in accordance with AASB 139 as detailed in the accounting policies are as follows:

| | Note | 2024 \$ | 2023 \$ |
|------------------------------------|------|------------------|------------------|
| Financial assets | | | |
| Cash and cash equivalents | 5 | 1,069,813 | 875,658 |
| Trade and other receivables | 6 | 181,869 | 195,691 |
| Total financial assets | | <u>1,251,682</u> | <u>1,071,349</u> |
| Financial liabilities | | | |
| Trade and other payables | 9 | 124,754 | 114,870 |
| Borrowings | | - | - |
| Total financial liabilities | | <u>124,754</u> | <u>114,870</u> |

(a) Credit risk

Exposure to credit risk relating to financial assets arises from the potential non-performance by counterparties of contract obligations that could lead to a financial loss to the company.

Credit risk is managed through maintaining procedures ensuring, to the extent possible, that clients and counterparties to transactions are of sound credit worthiness. Such monitoring is used in assessing receivables for impairment. Credit terms for normal fee income are generally 30 days from the date of invoice. For fees with longer settlements, terms are specified in the individual client contracts. In the case of loans advanced, the terms are specific to each loan.

Credit risk exposures

The maximum exposure to credit risk by class of recognised financial assets at the end of the reporting period is equivalent to the carrying amount and classification of those financial assets as presented in the table above.

The company has significant concentrations of credit risk with Bendigo and Adelaide Bank Limited. The company's exposure to credit risk is limited to Australia by geographic area.

The company limits its exposure to credit risk by only investing in liquid securities with Bendigo and Adelaide Bank Limited and therefore credit risk is considered minimal.

Notes to the financial statements (continued)

25. Financial risk management (continued)

(b) Liquidity risk

Liquidity risk is the risk that the company will not be able to meet its financial obligations as they fall due. The company ensures it will have enough liquidity to meet its liabilities when due under both normal and stressed conditions. Liquidity management is carried out within the guidelines set by the Board.

Typically, the company maintains sufficient cash on hand to meet expected operational expenses, including the servicing of financial obligations. This excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

The table below reflects an undiscounted contractual maturity analysis for financial liabilities.

Cash flows realised from financial assets reflect management's expectation as to the timing of realisation. Actual timing may therefore differ from that disclosed. The timing of cash flows presented in the table to settle financial liabilities reflects the earliest contractual settlement dates and does not reflect management's expectations that banking facilities will be rolled forward.

Notes to the financial statements (continued)

25. Financial risk management (continued)

(c) Market risk

Market risk is the risk that changes in market prices, such as interest rates, will affect the company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters.

Exposure to interest rate risk arises on financial assets and financial liabilities recognised at the end of the reporting period whereby a future change in interest rates will affect future cash flows or the fair value of fixed rate financial instruments.

The financial instruments that primarily expose the company to interest rate risk are and cash and cash equivalents.

Sensitivity analysis

The following table illustrates sensitivities to the company's exposures to changes in interest rates and equity prices. The table indicates the impact on how profit and equity values reported at the end of the reporting period would have been affected by changes in the relevant risk variable that management considers to be reasonably possible.

These sensitivities assume that the movement in a particular variable is independent of other variables.

| | Profit \$ | Equity \$ |
|--|---------------|--------------|
| Year ended 30 June 2024 | | |
| +/- 1% in interest rates (interest income) | 10,698 | 8,024 |
| | <u>10,698</u> | <u>8,024</u> |
| Year ended 30 June 2023 | | |
| +/- 1% in interest rates (interest income) | 8,720 | 6,540 |
| | <u>8,720</u> | <u>6,540</u> |
| Year ended 30 June 2022 | | |
| +/- 1% in interest rates (interest income) | 1,976 | 1,482 |
| | <u>1,976</u> | <u>1,482</u> |

There have been no changes in any of the methods or assumptions used to prepare the above sensitivity analysis from the prior year.

The company has no exposure to fluctuations in foreign currency.

(d) Price risk

The company is not exposed to any material price risk.

Fair values

Fair value estimation

The fair values of financial assets and liabilities are presented in the following table and can be compared to their carrying amounts as presented in the statement of financial position.

Differences between fair values and the carrying amounts of financial instruments with fixed interest rates are due to the change in discount rates being applied to the market since their initial recognition by the company.

| Note | 2024 | | 2023 | |
|------------------------------------|------------------|------------------|------------------|------------------|
| | Carrying amount | Fair value | Carrying amount | Fair value |
| Financial assets | | | | |
| Cash and cash equivalents (i) | 1,069,813 | 1,069,813 | 875,658 | 875,658 |

INDEPENDENT AUDITOR'S REPORT

To the directors of Buninyong & District Financial Services Limited

Report on the Audit of the Financial Report

Opinion

We have audited the accompanying financial report of Buninyong & District Financial Services Limited (the company), which comprises the statement of financial position as at 30 June 2024, and the statement of profit and loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes comprising to the financial statements, including a summary of significant accounting policies and the directors' declaration.

In our opinion, the financial report of Buninyong & District Financial Services Limited is in accordance with the *Corporations Act 2001*, including

- (a) giving a true and fair view of the company's financial position as at 30 June 2024 and of its performance for the period ended on that date; and
- (b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for our Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the registered entity in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's *APES 110 Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Directors' Responsibility for the Financial Report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australia Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of a financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.
