Principal Activities

Review and Results of Operations

Operations have continued to perform in line with expectations. The net profit of the company for the financial period after the provision of income tax was: \$80,544 [2009: \$41,661].

Matters Subsequent to the End of the Reporting Period

On 22 February 2011 the company's Franchise partner Bendigo & Adelaide Bank Limited announced that commencing 1 April 2011 two income streams (Term Deposits greater than 90 days and Fixed Rate Home Loans) will have their trailing commission cut from 0.5% to 0.375%. This reduction in commission rate is expected to have a material effect on the expected revenue and profits of the company in the 2011/2012 financial year. The Board estimates that the change will reduce income by \$60,000 based on current budgets and it will continue to monitor budgets to ensure maximisation of returns to shareholders and the community. Further confirmation of the financial effect will be available in the 2011 Annual Report.

There are no other matters or circumstances that have arisen since the end of the half year reporting period that have significantly affected or may significantly affect the operations of the company, the results of those operations or the state of affairs of the company.

Notes to the financial statements
for the half-year ended 31 December 2010

Note 1. Basis of Preparation of the Half-Year Financial Statements

The half-year financial statements are a general purpose financial report prepared in accordance with the requirements of the *Corporations Act 2001*, Australian Accounting Standards, *AASB 134: Interim Financial Reporting*, Australian Accounting Interpretations and other authoritative pronouncements of the Australian Accounting Standards Board.

The half-year financial report is intended to provide users with an update on the latest annual financial statements and does not include all the notes of the type normally included in an annual financial report. Accordingly the report shall be read in conjunction with the annual financial report for the year ended 30 June 2010 and any public announcements made by the company during the

The same accounting policies and methods of computation have been followed in this interim financial report as were applied in the most recent annual financial statements and the previous corresponding interim period.

The half-year financial report has been prepared on an accruals basis and is based on historical costs modified by the revaluation of selected non-current assets, financial assets and financial liabilities for which the fair value basis of accounting has been applied.

Adoption of new and revised Accounting Standards

During the current year the entity has adopted all of the new and revised Australian Accounting Standards and Interpretations applicable to its operations which became mandatory.

The adoption of these standards has impacted the recognition, measurement and disclosure of certain transactions. The following is an explanation of the impact the adoption of these standards and interpretations has had on the financial statements of the company.

AASB 101 Presentation of Financial Statements

In September 2007 the Australian Accounting Standards Board revised AASB 101, and as a result there have been changes to the presentation and disclosure of certain information within the financial statements. Below is an overview of the key changes and the impact on the company's financial statements.

Disclosure impact

Terminology changes – The revised version of AASB 101 contains a number of terminology changes, including the amendment of the names of the primary financial statements.

Reporting changes in equity – The revised AASB 101 requires all changes in equity arising from transactions with owners in their capacity as owners to be presented separately from non-owner changes in equity. Owner changes in equity are to be presented in the statement of changes in equity, with non-owner changes in equity presented in the statement of comprehensive income. The previous version of AASB 101 required that owner changes in equity and other comprehensive income be presented in the statement of changes in equity.

Statement of comprehensive income – The revised AASB 101 requires all income and expenses to be presented in either one statement, the statement of comprehensive income, or two statements, a separate income statement and a statement of comprehensive income. The previous version of AASB 101 required only the presentation of a single income statement.

The company's financial statements contain a single statement of comprehensive income.

for the half-year ended 31 December 2010

Note 1. Basis of Preparation of the Half-Year Financial Statements (continued)

Adoption of new and revised Accounting Standards (continued)

Other comprehensive income – The revised version of AASB 101 introduces the concept of “other comprehensive income” which comprises of income and expense that are not recognised in profit or loss as required by other Australian Accounting Standards. Items of other comprehensive income are to be disclosed in the statement of comprehensive income. Entities are required to disclose the income tax relating to each component of other comprehensive income. The previous version of AASB 101 did not contain an equivalent concept.

New Accounting Standards for application in future periods

The AASB has issued new and amended accounting standards and interpretations that have mandatory application dates for future reporting periods, as follows:

- *AASB 9: Financial Instruments and AASB 2009-11: Amendments to Australian Accounting Standards arising from AASB 9 [AASB 1, 3, 4, 5, 7, 101, 102, 108, 112, 118, 121, 127, 128, 131, 132, 136, 139, 1023 & 1038 and Interpretations 10 & 12] (applicable for annual reporting periods commencing on or after 1 January 2013)*
- *AASB 2009-12: Amendments to Australian Accounting Standards [AASBs 5, 8, 108, 110, 112, 119, 133, 137, 139, 1023 & 1031 and Interpretations 2, 4, 16, 1039 & 1052] (applicable for annual reporting periods commencing on or after 1 January 2011)*

These standards are applicable retrospectively and amend the classification and measurement of financial assets. The company has determined these amendments will have no impact on the preparation of the financial statements and therefore they have not been applied.

Note 2. Events Subsequent to Reporting Date

On 22 February 2011 the company's Franchise partner Bendigo & Adelaide Bank Limited announced that commencing 1 April 2011 two income streams (Term Deposits greater than 90 days and Fixed Rate Home Loans) will have their trailing commission cut from 0.5% to 0.375%. This reduction in commission rate is expected to have a material effect on the expected revenue and profits of the company in the 2011/2012 financial year. The Board estimates that the change will reduce income by \$60,000 based on current budgets and it will continue to monitor budgets to ensure maximisation of returns to shareholders and the community. Further confirmation of the financial effect will be available in the 2011 Annual Report.

There have been no other events subsequent to reporting date that would materially effect the financial statements at the reporting date.

Note 3. Contingent Assets and Liabilities

There were no contingent assets or liabilities at the date of this report to affect the financial statements.

Note 4. Segment Reporting

The economic entity operates in a single service sector where it facilitates community banking services in pursuant to a franchise agreement with Bendigo and Adelaide Bank Limited.

Note 5. Related Parties

Arrangements with related parties continue to be in place. For details on these arrangements, refer to the 30 June 2010 annual financial report.
