Contents

CHAIRMAN'S REPORT

The 2017/18 financial year has proven to be a difficult year with the Branch profit down on last year. The Branch attracted many loan applications, particularly in the property area, however these applications were rejected by Bendigo Bank. The prospective clients could have added some $150 million to our Bank book but were advised by the Bendigo Bank, they "had no appetite" for this type of business.

The Board has conducted a Bank restructure and new promotion activity promoting different products in an effort to increase the Bank book and return to a higher level of profit. Shareholders will be exposed to Bendigo Bank products from our promotional campaign and are encouraged to use the attractive products being sold by the Bendigo Bank.

One very pleasing event during the year was the Branch Australian Franchisee Award for this is the fifth award received which demonstrates the delivery of the Community Bank mandate of giving back to the Community ($2.8 million of grants and sponsorships have been distributed in the Community since the Branch's beginning).

In closing, I once again thank all loyal customers and shareholders for their continued support and a particular thanks to staff and Board members for their outstanding contribution.

Kindest Regards to All,

Nick Catania

Nick Catania B.Ec JP
Chairman

Bendigo and Adelaide Bank report

For year ending 30 June 2018

It's been 20 years since the doors to the first **Community Bank®** branch opened. And it has only been a few months since the latest, the 321st, **Community Bank®** branch opened its doors.

In the last 20 years, much has changed. A staggering 92 per cent of our customers do their banking online and we pay for goods and services on a range of mobile phones, our watches and even our fitness devices. Many are embracing this online world with a sense of excitement and confidence. Our model will be even more accessible to people right across Australia.

Despite the change many things have also remained constant through the last two decades. Commitment within communities remains as strong today as it has ever been; from our first **Community Bank®** branch to the most recent one, and the 319 in between.

This year, five of our Community Bank branches are celebrating 20 years in business. Bendigo Bank has celebrated 160 years in business. We farewelled Managing Director Mike Hirst and welcomed into the MD role long-time Bendigo employee Marnie Baker.

Our **Be the change** online marketing campaign has been the most successful online marketing campaign ever run by our organisation. The premise behind **Be the change** is simple – it thanks individual customers for banking with their **Community Bank®** branch.

But it's not the Bank thanking the customers. It's not the staff, volunteer directors or shareholders thanking the customers. It's the kids from the local little athletics and netball clubs, it's the man whose life was saved by a **Community Bank®** funded defib unit, it's members of the local community choir and the animal rescue shelter. These people whose clubs and organisations have received a share of over $200 million in **Community Bank®** contributions, all because of people banking with their local **Community Bank®** branch.

Be the change has further highlighted the power of the model. For others, customers are important. For our **Community Bank®** network, customer support ensures our point of difference. It's the reason we can share in the revenue generated by their banking business. Without this point of difference, we would be just another bank.

But we're not, we're Bendigo Bank and we're Australia's only *'community bank',* recently named by Roy Morgan Research as Australia's third most trusted brand and most trusted bank. As one of 70,000-plus **Community Bank®** company shareholders across Australia, these are outcomes we hope you too are proud of.

I'd like to thank you for your decision to support your local **Community Bank®** company as a shareholder. Your support has been vitally important to enhancing the prospects and outcomes within your community.

Without you, there would be no **Community Bank®** branch network in Australia.

We value your initial contribution and your ongoing support of your **Community Bank®** branch and your community. Thank you for continuing to play a role in helping your community **Be the change**.

Robert Musgrove

Company Secretary

Ian Wesley Crawford

Directors meetings attended

During the financial year, 11 meetings of directors (including committees of directors) were held. Attendances by each Director during the year were as follows:

Names of Directors	Directors' Meetings	
	Number eligible to attend	Number attended
Nicholas Catania	11	11
Ian Wesley Crawford	11	11
James John Burns	11	10
James Peter De Leo	11	9
Sam De Vita	11	10
Isidoro Messina	11	11
Carlo Pennone	11	6
James Elder	11	11
Dean Franks	11	7
Steed Farrell	11	6

Principal Activities and Review of Operations

The principal activity and focus of the Company's operations during the year was the operation of two Branches of Bendigo and Adelaide Bank Limited, pursuant to their franchise agreements. The second operation located in Osborne Park ceased operations on 2 September 2017.

Financial Results

The profit after income tax expense of the Company for the year ended 30 June 2018 was $8,543 (2017: 162,742 Profit).

Dividends

The Company declared dividends of $75,300 during the year (2017: $50,200).

Significant Changes in the State of Affairs

There were no significant changes in the state of affairs of the Company during the year.

Likely Developments

Likely developments in the operations of the Company and the expected results of those operations in future financial years have not been included in this report, as the inclusion of such information is likely to result in unreasonable prejudice to the Company.

Significant Events after the Reporting Period

There were no events subsequent to the end of the financial year that would have a material effect on these financial statements.

Options

No options over issue shares or interests in the Company were granted to Directors or Executives during or since the end of the financial year and there were no options outstanding at the date of this report.

Indemnifying Officers or Auditor

Indemnities have been given, during and since the end of the financial year, for any persons who are or have been a Director or an officer, but not an auditor, of the Company. The insurance contract prohibits disclosure of any details of the cover.

Proceedings on Behalf of Company

No person has applied for leave of Court to bring proceedings on behalf of the Company or intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or any part of those proceedings.

Environmental Regulations

The Company's operations are not regulated by any significant environment regulation under a law of the Commonwealth, state or Territory.

Non-Audit Services

There were no non-audit services performed during the year by the auditors for the Company (or by another person or firm on the auditor's behalf).

Independence Declaration

The auditor's independence declaration under section 307C of the *Corporations Act 2001* is set out on page 6 of the financial report.

This report is signed in accordance with a resolution of the Board of Directors.

DIRECTOR

PERTH
DATED THIS 3th DAY OF OCTOBER 2018.

Directors' Declaration

The Directors of the Company declare that:

1. the accompanying financial statements and notes are in accordance with the *Corporations Act 2001* and:

   a. comply with Accounting Standards; and

   b. give a true and fair view of the financial position as at 30 June 2018 and of the performance for the year ended on that date of the Company;

2. the Chief Executive Officer and Chairman of Corporate Governance and Audit Committee have each declared that:

   a. the financial records of the Company for the financial year have been properly maintained in accordance with section 286 of the *Corporations Act 2001*;
   b. the financial statements and notes for the financial year comply with the Accounting Standards; and
   c. the financial statements and notes for the financial year give a true and fair view; and

3. in the Directors' opinion there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Board of Directors.

Independent Auditor's Report

To the Members of North Perth Community Financial Services Limited

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of North Perth Community Financial Services Limited (the company), which comprises the statement of financial position as at 30 June 2018, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion:

a. the financial report of North Perth Community Financial Services Limited is in accordance with the *Corporations Act 2001*, including:

   i. giving a true and fair view of the company's financial position as at 30 June 2018 and of its performance for the year ended on that date; and

   ii. complying with Australian Accounting Standards and the *Corporations Regulations 2001*;

b. the financial report also complies with International Financial Reporting Standards as disclosed in Note 1.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report section* of our report. We are independent of the company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 : *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Suite 2, 137 Burswood Rd, Burswood WA 6100 PO Box 398, Victoria Park WA 6979 P (08) 9470 4848 F (08) 9470 4849 E mail@macripartners.com.au W macripartners.com.au

Information Other than the Financial Report and Auditor's Report Thereon

The directors are responsible for the other information. The other information comprises the information included in the company's annual report for the year ended 30 June 2018, but does not include the financial report and our auditor's report thereon. Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon. In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Independent Auditor's Report continued

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entity to express an opinion on the financial report. We are responsible for the direction, supervision and performance of the entity's audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

The accompanying notes form part of these financial statements.

Note 1: Statement of Significant Accounting Policies

This financial report covers North Perth Community Financial Services Limited, as an individual entity. North Perth Community Financial Services Limited is a public company, incorporated and domiciled in Australia.

Basis of Preparation

The financial report is a general purpose financial report that has been prepared in accordance with Australian Accounting Standards, Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board (AASB) and the *Corporations Act 2001*.

Australian Accounting Standards set out accounting policies that the AASB has concluded would result in a financial report containing relevant and reliable information about transactions, events and conditions. Compliance with Australian Accounting Standards ensures that the financial statements and notes also comply with International Financial Reporting Standards. Material accounting policies adopted in the preparation of this financial report are presented below and have been consistently applied, unless otherwise stated.

The financial report has been prepared on an accruals basis and is based on historic costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

(a) Income Tax

The income tax expense for the year comprises current income tax expense and deferred tax expense.

Current income tax expense charged to the profit or loss is the tax payable on taxable income calculated using applicable income tax rates enacted, or substantially enacted, as at reporting date. Current tax liabilities are therefore measured at the amounts expected to be paid to the relevant taxation authority.

Deferred income tax expenses reflects movements in deferred tax assets and deferred tax liability balances during the year as well as unused tax losses.

Current and deferred income tax expense is charged or credited outside profit or loss when the tax relates to items that are recognised outside profit or loss.

Deferred tax assets and liabilities are ascertained based on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets also result where amounts have been fully expensed but future tax deductions are available. No deferred income tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates enacted or substantively enacted at reporting date. Their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability.

(a) Income tax (continued)

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

When temporary differences exist in relation to investments in subsidiaries, branches, associates, and joint ventures, deferred tax assets and liabilities are not recognised where the timing of reversal of the temporary difference can be controlled and it is not probable that the reversal will occur in the foreseeable future.

Current tax assets and liabilities are offset where a legally enforceable right of set-off exists and it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur. Deferred tax assets and liabilities are offset where a legally enforceable right of set-off exists, the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur in future periods in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

(b) Plant and Equipment

Each class of plant and equipment is carried at cost or fair value less, where applicable, any accumulated depreciation and impairment losses.

Plant and equipment

Plant and equipment is measured on the cost basis less depreciation and impairment losses.

The carrying amount of plant and equipment is reviewed annually by Directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the assets employment and subsequent disposal. The expected net cash flows have been discounted to their present values in determining the recoverable amounts.

The cost of fixed assets constructed within the entity includes the costs of materials, direct labour, borrowing costs and an appropriate proportion of fixed and variable overheads.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the statement of comprehensive income during the financial period in which they are incurred.

Depreciation

The depreciable amount of all fixed assets including capitalised leased assets, is depreciated over their useful lives commencing from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements.

Depreciation (continued)

The depreciation rates used for each class of depreciable assets are:

Class of Fixed Asset	Depreciation Rate
Plant and equipment	15.35% - 20%
Motor Vehicles	15.35%

The assets' residual values and useful lives are reviewed, and adjusted, if appropriate, at the end of each reporting period.

An asset's carrying value is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the statement of comprehensive income. When revalued assets are sold, amounts included in the revaluation reserve relating to that asset are transferred to retained earnings.

(c) Leases

Leases of fixed assets where substantially all the risks and benefits incidental to the ownership of the asset, but not the legal ownership that is transferred to the company are classified as finance leases.

Finance leases are capitalised by recording an asset and a liability at the lower of the amounts equal to the fair value of the leased property or the present value of the minimum lease payments, including any guaranteed residual values. Lease payments are allocated between the reduction of the lease liability and the lease interest expense for the period.

Leased assets are depreciated on a straight-line basis over the shorter of their estimated useful lives or the lease term.

Lease payments for operating leases, where substantially all the risks and benefits remain with lessor, are charged as expense in the periods in which they are incurred.

Lease incentives under operating leases are recognised as a liability and amortised on a straight-line basis over the life of the lease term.

(d) Financial Instruments

Initial Recognition and Measurement

Financial assets and financial liabilities are recognized when the entity becomes a party to the contractual provisions to the instrument. For financial assets, this is equivalent to the date that the company commits itself to either the purchase or sale of the asset (i.e. trade date accounting is adopted).

Financial instruments are initially measured at fair value plus transactions costs, except where the instrument is classified 'at fair value through profit or loss', in which case transaction costs are expensed to profit or loss immediately

(d) Financial Instruments (continued)

Classification and Subsequent Measurement

Financial assets are subsequently measured at either fair value, amortised cost using the effective interest rate method or cost. Fair value represents the amount for which an asset could be exchanged or a liability settled, between knowledgeable, willing parties. Where available, quoted prices in an active market are used to determine fair value. In other circumstances, valuation techniques are adopted.

Amortised cost is calculated as:

(i) the amount at which the financial asset or financial liability is measured at initial recognition;
(ii) less principal repayments;
(iii) plus or minus the cumulative amortisation of the differences, if any, between the amount initially recognised and the maturity amount calculated using the effective interest method; and
(iv) less any reduction for impairment.

The effective interest method is used to allocate interest income or interest expense over the related period and is equivalent to the rate that exactly discounts estimated future cash payments or receipts (including fees, transaction costs and other premiums or discounts) through the expected life (or when this cannot be reliably predicted, the contractual term) of the financial instrument to the net carrying amount of the financial asset or financial liability. Revisions to expected future net cash flows will necessitate an adjustment to the carrying value with a consequential recognition of an income or expense in profit or loss.

The company does not designate any interest in subsidiaries, associates or joint venture entities as being subject to the requirements of accounting standards specifically applicable to financial instruments.

(i) Financial assets at fair value through profit or loss

Financial assets are classified at 'fair value through profit or loss' when they are either held for trading for the purpose of short term profit taking, derivatives not held for hedging purposes, or when they are designated as such to avoid an accounting mismatch or to enable performance evaluation where a group of financial assets is managed by key management personnel on a fair value basis in accordance with a documented risk management or investment strategy. Such assets are subsequently measured at fair value with changes in carrying value being included in profit or loss.

(ii) Loans and Receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market are subsequently measured at amortised cost.

Loans and receivables are included in current assets, except for those which are not expected to mature within 12 months after the end of the reporting period. All other loans and receivables are classified as non-current assets.

(d) Financial Instruments (continued)

(iii) Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets that have fixed maturities and fixed or determinable payments, and it is the company's intention to hold these investments to maturity. They are subsequently measured at amortised cost.

Held-to-maturity investments are included in non-current assets, except for those which are expected to mature within 12 months after the end of the reporting period. All other investments are classified as current assets.

If during the period the company sold or reclassified more than as significant amount of the held-to-maturity investments before maturity, the entire held-to-maturity investments category would be tainted and reclassified as available-for-sale.

(iv) Available for sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are either not suitable to be classified into other categories of financial assets due to their nature, or they are designated as such by management. They comprise investments in the equity of other entities where there is neither a fixed maturity nor fixed or determinable payments.

They are subsequently measured at fair value with changes in such fair value (i.e. gains or losses) recognised in other comprehensive income (except for impairment losses and foreign exchange gains and losses). When the financial asset is derecognised, the cumulative gain or loss pertaining to that asset previously recognised in other comprehensive income is reclassified into profit or loss.

Available-for-sale financial assets are included in non-current assets, except for those which are expected to mature within 12 months after the end of the reporting period. All other financial assets are classified as current assets.

(v) Financial Liabilities

Non-derivative financial liabilities (excluding financial guarantees) are subsequently measured at amortised cost.

Derivative Instruments

Derivative instruments are measured at fair value. Gains and losses arising from changes in fair value are taken to the statement of comprehensive income unless they are designated as hedges.
The Company does not hold derivative instruments.

Fair Value

Fair value is determined based on current bid prices of all quoted investments. Valuation techniques are applied to determine the fair value of all unlisted securities, including arm's length transactions, reference to similar instruments and option pricing models.

(d) Financial Instruments (continued)

Impairment

At each reporting date, the company assesses whether there is objective evidence that a financial instrument has been impaired. In the case of available-for-sale financial instruments, a prolonged decline in the value of the instrument is considered to determine whether an impairment has arisen. Impairment losses are recognised in the statement of comprehensive income.

Financial Guarantees

Where material, financial guarantees issued, which require the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due, are recognised as a financial liability at fair value on initial recognition.

The guarantee is subsequently measured at the higher of the best estimate of the obligation and the amount initially recognised less, when appropriate, cumulative amortisation in accordance with AASB 118: Revenue. Where the entity gives guarantees in exchange for a fee, revenue is recognised under AASB 118.

The company has not issued any financial guarantees.

Derecognition

Financial assets are derecognised where the contractual rights to receipt of cash flows expires or the asset is transferred to another party whereby the entity no longer has any significant continuing involvement in the risks and benefits associated with the asset. Financial liabilities are derecognised where the related obligations are either discharged, cancelled or expired. The difference between the carrying value of the financial liability extinguished or transferred to another party and the fair value of consideration paid, including the transfer of non-cash assets or liabilities assumed is recognised in profit or loss.

(e) Impairment of Assets

At each reporting period, the company assesses whether there is any indication that an asset may be impaired. The assessment will include the consideration of external and internal sources of information including dividends received from subsidiaries, associates or jointly controlled entities deemed to be out of pre-acquisition profits. If such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed to the statement of comprehensive income.

Where it is not possible to estimate the recoverable amount of an individual asset, the company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Impairment test is performed annually for goodwill and intangible assets with indefinite lives.

Notes to the Financial Statements continued

For the Year Ended 30 June 2018

(f) Intangibles

Franchise Fee

The franchise fee paid by the company pursuant to a Franchise Agreement with Bendigo and Adelaide Bank Limited is being amortised over five (5) years period of the agreement, being the period of expected economic benefits of the franchise fee.

(g) Employee Benefits

Provision is made for the company's liability for employee benefits arising from services rendered by employees to the end of the reporting period. Employee benefits that are expected to be settled within one year have been measured at the amounts expected to be paid when the liability is settled, plus related on-costs. Employee benefits payable later than one year have been measured at the present value of the estimated future cash outflows to be made for those benefits. In determining the liability, consideration is given to employee wage increases and the probability that the employee may satisfy vesting requirements. Those cash flows are discounted using market yields on national government bonds with terms to maturity that match the expected timing of cash flows.

The Company contributes to a defined contribution plan. Contributions to employee superannuation funds are charged against income as incurred.

(h) Provisions

Provisions are recognised when the company has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

(i) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short- term highly liquid investments with original maturities of three months or less. Bank overdrafts are shown within short-term borrowings in current liabilities in the statement of financial position.

(j) Trade and Other Payables

Trade and other payables represent the liability outstanding at the end of the reporting period for goods and services received by the company during the reporting period which remains unpaid. The balance is recognised as a current liability with the amount being normally paid within 30 days of recognition of the liability.

(k) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of assets that necessarily take a substantial period of time to prepare for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowings costs are recognised in income in the period in which they are incurred.

(l) Revenue and Other Income

Revenue is measured at the fair value of the consideration received or receivable after taking into account any trade discounts and volume rebates allowed. Any consideration deferred is treated as the provision of finance and is discounted at a rate of interest that is generally accepted in the market for similar arrangements. The difference between the amount initially recognised and the amount ultimately received is interest revenue.

Interest revenue is recognised using the effective interest rate method, which, for floating rate financial assets, is the rate inherent in the instrument.

All dividends received shall be recognised as revenue when the right to receive the dividend has been established.

Revenue recognition relating to provision of services is determined with reference to the stage of completion of the transaction at the end of the reporting period and where outcome of the contract can be estimated reliably. Stage of completion is determined with reference to the service performed to date as a percentage of total anticipated services to be performed. Where the outcome cannot be estimated reliably, revenue is recognised only to the extent that related expenditure is recoverable.

All revenue is stated net of the amount of goods and services tax (GST).

(m) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). In these circumstances, the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense.

Receivables and payables in the statement of financial position are shown inclusive of GST. The net amount of GST receivable from, or payable to, the ATO is included with other receivables or payables in the statement of financial position.

Cash flows are presented in the statement of cash flows on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

(n) Comparative Figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

When the Company applies an accounting policy retrospectively, makes a retrospective restatement or reclassifies items in its financial statements, a statement of financial position as at the beginning of the earliest comparative period will be disclosed.

(o) Critical Accounting Estimates and Judgements

The Directors evaluate estimates and judgments incorporated into the financial report based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the company.

(o) Critical Accounting Estimates and Judgements (continued)

(i) Impairment

The company assesses impairment at the end of each reporting period by evaluation conditions and events specific to the company that may be indicative of impairment triggers. Recoverable amounts of relevant assets are reassessed using value-in-use calculations which incorporate various key assumptions.

No impairment has been recognised in respect of intangibles for the year ended 30 June 2018. Should the projected turnover figures be materially outside of budgeted figures incorporated in value-in-use calculations, an impairment loss would be recognised up to the maximum carrying value of intangibles at 30 June 2018 amounting to $45,298.

(p) New Accounting Standards and Interpretations for Application in Future Periods

The AASB has issued a number of new and amended Accounting Standards and Interpretations that have mandatory application dates for future reporting periods.

Management's assessment of the new and amended pronouncements that are relevant to the Company, applicable to future reporting periods and which have not yet been adopted are set out as follows:

	Title	Issued/ Compiled	Applicable (1)	Impact
(i)	AASB 9 Financial Instruments (incorporating AASB 2014-7 and AASB 2014-8)	December 2014	1 January 2018	Nil – The objective of this Standard is to improve and simplify the approach for classification and measurement of financial assets compared with the requirements of AASB 139. Given the nature of the financial assets of the Company, it is not anticipated the Standard will have any material effect.
(ii)	AASB 15 Revenue from Contracts with Customers	December 2014	1 January 2018	This Standard Establishes principles for entities to apply to report useful information to users of financial statements about the nature, amount, timing and uncertainty of revenue and cash flows arising from a contract with a customer. The effect of this Standard will depend upon the nature of future transactions the Company has with those third parties it has dealings with. It may or may not be significant.

	Title	Issued/ Compiled	Applicable (1)	Impact
(iii)	AASB 16 Leases	February 2017	1 January 2019	Under AASB 16 there is no longer a distinction between finance and operating leases. Lessees will now bring to account a right-to-use asset and lease liability onto their statement of financial position for all leases. Effectively this means the vast majority of operating leases as defined by the current AASB 117 Leases which currently do not impact the statement of financial position will be required to be capitalised on the statement of financial position once AASB 16 is adopted. Currently, operating lease payments are expensed as incurred. This will cease and will be replaced by both depreciation and interest charges. Based on the current number of operating leases held by the Company, the impact is not expected to be significant.
(iv)	AASB 2014-5 Amendments to Australian Accounting Standards arising from AASB 15	December 2014	1 January 2018	Consequential changes to various Standards arising from the issuance of AASB 15. It will require changes to reflect the impact of AASB 15.
(v)	AASB 2015-2 Amendments to Australian Accounting Standards – Disclosure Initiative: Amendments to AASB 101 [AASB 7, 101, 134 & 1049]	January 2015	1 January 2017	This Standard amends AASB 101 to provide clarification regarding the disclosure requirements in AASB 101. Specifically, the Standard proposes narrow-focus amendments to address some of the concerns expressed about existing presentation and disclosure requirements and to ensure entiti4es are able to use judgement when applying a Standard in determining what information to disclose in their financial statements

Title	Issued/ Compiled	Applicable [1]	Impact
			This Standard also makes editorial and consequential amendments as a result of amendments to the Standards listed in the title column. It is not anticipated it will have any significant impact on disclosures as they currently exist and any changes will relate to presentation.

Notes:
[1] Applicable to reporting periods commencing on or after the given date.

(q) Adoption of New and Revised Accounting Standards

During the current year, the Company adopted all of the new and revised Australian Accounting Standards and interpretations which were compiled, became mandatory and which were applicable to its operations.

The new and revised standard was as follows:

AASB 2015-3 Amendments to Australian Accounting Standards arising from the withdrawal of AASB 1031 Materiality

	2018 $	2017 $
Note 2: Revenue and Other Income		
Operating Activities		
- Franchise margin income	1,203,980	1,355,616

Fully franked ordinary dividend paid on 30 March 2018 of 15 cents per share (2017: 10 cents)	75,300	50,200
Balance of franking account at year-end	1,309,606	1,279,936

Note 6: Interests of Key Management Personnel (KMP)

a. Name and positions

Name	*Position*
Nicholas Catania	Chairman
Ian Wesley Crawford	Company Secretary
James John Burns	Non-Executive Director
James Peter De Leo	Non-Executive Director
Sam De Vita	Non-Executive Director
Isidoro Messina	Non-Executive Director
Carlo Pennone	Non-Executive Director
James Elder	Non-Executive Director
Dean Franks	Non-Executive Director
Steed Farrell	Non-Executive Director

b. Remuneration of Key Management Positions

Directors of the Company received a total of $37,700 as remuneration for services as Directors.

c. Shareholdings

Number of ordinary shares in North Perth Community Financial Services Limited held by key management personnel of the company during the financial year is as follows:

	Ordinary Shares			
Directors	*Beginning balances*	*Purchase*	*Other changes*	*Ending Balances*
Nicholas Catania	1,500	-	-	1,500
Ian Wesley Crawford	5,000	-	-	5,000
James John Burns	10,000	-	-	10,000
James Peter De Leo	1,000	-	-	1,000
Sam Aldo De Vita	7,000	-	-	7,000
Isidoro Messina	7,500	-	-	7,500
Carlo Pennone	2,700	-	-	2,700
James Elder	2,000	-	-	2,000
Dean Franks	-	-	-	-
Steed Farrell	-	-	-	-
	36,700	-	-	36,700

Option Holdings

No options over ordinary shares in the company are held by any Director of the company or other key management personnel, including their personally related parties.

Note 7: Cash and Cash Equivalents

	2018 $	2017 $
Cash at Bank	159,186	327,417
Short-term bank deposits	2,132,294	2,051,264
	2,291,480	2,378,681

Note 8: Trade and Other Receivables

	2018 $	2017 $
CURRENT

Other debtors	410	644
Accrued Income	311	4,228
	110,007	115,095

a. Provision for Impairment of Receivables

Current trade and term receivables are non-interest bearing loans and generally on 30-day terms. Non-current trade and term receivables are assessed for recoverability based on the underlying terms of the contract. A provision for impairment is recognised when there is objective evidence that individual trade or term receivable is impaired. These amounts have been included in the other expenses item.

There is no provision for impairment of receivables.

Note 9: Other Assets

	2018 $	2017 $
CURRENT

Note 20: Events after the Reporting Period

There are no matters or circumstances that have arisen since the end of the financial year that have significantly affected or may significantly affect the operations of the company, the results of those operations or the state of affairs of the company except for the information disclosed in the Directors' report.

Note 21: Segment Reporting

The company operates in the financial services sector as a branch of Bendigo Bank Limited in Western Australia.

Note 22: Related Party Transactions

Sam Aldo De Vita is a partner of Devita Legal of which the firm is a panel of solicitors for Bendigo Bank.

Devita Legal receives instructions from various Community Bank branches of Bendigo Bank, including but not limited to the North Perth Community Bank Branch.

Nicholas Catania is a director of Deltalane Corporate Pty Ltd which is a private business consultancy firm providing consultancy to various companies including, but not limited to North Perth Community Financial Services Ltd.

Note 23: Financial Risk Management

The company's financial instruments consist mainly of deposits with banks, local money market instruments, short-term investments, accounts receivable and payable, loans. The company does not engage in transaction expressed in foreign currencies and is therefore not subject to foreign currency risk. Financial Risk Management is carried out by the Board of Directors.

The Directors' overall risk management strategy seeks to assist the company in meeting its financial targets, whilst minimising potential adverse effects on financial performance.

a. Financial Risk Management Policies

Risk management policies are approved and reviewed by the Board of Directors on a regular basis. These include the credit risk policies and future cash flow requirements. The main purpose of non-derivative financial instruments is to raise finance for Company operations.

The Company does not have any derivative instruments at 30 June 2018.

b. Specific Financial Risk Exposures and Management

The main risks the company is exposed to through its financial instruments are interest rate risk, liquidity risk and credit risk.

Interest Rate Risk

Interest rate risk is managed with a mixture of fixed and floating rate debt.

Liquidity Risk

The Company manages liquidity risk by monitoring forecast cash flows and ensuring that adequate unutilised borrowing facilities are maintained.

Note 23: Financial Risk Management (continued)

Credit Risk

The maximum exposure to credit risk, excluding the value of any collateral or other security, at balance date to recognised financial assets, is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the balance sheet and notes to the financial statements.

There are no material amounts of collateral held as security at 30 June 2018.

The Company does not have any material credit risk exposure to any single receivable or group of receivables under financial instruments entered into by the Company.

Credit risk is managed reviewed regularly by the Board of Directors. It arises from exposures to customers as well as through deposits with financial institutions.

The Board of Directors monitors credit risk by actively assessing the rating quality and liquidity of counter parties:

- all potential customers are rated for credit worthiness taking into account their size, market position and financial standing; and

- customers that do not meet the company's strict credit policies may only purchase in cash or using recognised credit cards.

The trade receivables balances at 30 June 2018 and 30 June 2017 do not include any counterparties with external credit ratings. Customers are assessed for credit worthiness using the criteria detailed above.

c. Financial Instrument Composition and Maturity Analysis

The company held the following financial instruments at balance date:

	Carrying Value		Fair Value	
	2018	2017	2018	2017
	$	$	$	$
FINANCIAL ASSETS				
Cash and Cash Equivalents	2,291,480	2,378,681	2,291,480	2,378,681
Trade and other receivables	110,007	115,095	110,007	115,095
Other financial assets	229,747	194,473	229,747	194,473
	2,631,234	2,688,249	2,631,234	2,688,249
FINANCIAL LIABILITIES				
Trade and other payables	138,477	148,772	138,477	148,772
Borrowings	31,477	40,990	28,218	37,081
	169,954	189,762	166,695	185,853

Note 23: Financial Risk Management (continued)

Fair value is determined as follows:

The carrying value of cash and cash equivalents, receivables, available-for-sale financial assets and payables are estimated approximates to their net market values.

(a) Cash and Cash Equivalents

The company's objective is to maximize its return on cash and cash equivalent instruments whilst maintaining an adequate level of liquidity and preserving Capital.

Cash and investments are subjected to interest rate risk – the risk that movements in interest rates affect returns.

The company manages its risks by diversifying its portfolio and only purchasing cash and other investments with high credit ratings or capital guarantees.

Sensitivity Analysis

The following table illustrates sensitivities to the company's exposures to changes in interest rates and equity prices. The table indicates the impact on how the profit and equity values reported at balance date would have been affected by changes in the relevant risk variable that management considers to be reasonably possible. These sensitivities assume that the movement in a particular variable is independent of other variables.

	Profit $	Equity $
Year ended 30 June 2018		
+/- 2% in interest rates	+/-45,829	+/-45,829
Year ended 30 June 2017		
+/- 2% in interest rates	+/-47,574	+/-47,574

(a) Receivables

The company's major risk associated with the receivables is credit risk – the risk that the debts may not be repaid. The company manages this risk by monitoring outstanding debt and employing appropriate debt recovery procedures.

The company does not have any material credit risk exposure to any single receivable or group of receivables under financial investments entered into by the company.

(b) Payables

Payables are subjected to liquidity risk – that is the risk that insufficient funds may be on hand to meet payment obligations as and where they fall due. The Directors manage this risk by monitoring its cash flow requirements and liquidity levels and maintaining an adequate cash buffer and has a loan facility with the bank.

Note 23: Financial Risk Management (continued)

The table below reflects the undiscounted contractual settlement terms for financial instruments of a fixed period of maturity, as well as management's expectations of the settlement period for all other financial instruments. As such, the amounts may not reconcile to the statement of financial position.

	Weighted Average Effective Interest Rate		Floating Interest Rate		Non-interest Bearing		Total	
	2018	2017	2018	2017	2018	2017	2018	2017
	%	%	$	$	$	$	$	$
Financial Assets:								
Cash and cash at bank	0.02%	0.02%	159,186	327,417	-	-	159,186	327,417
Short-term deposits	3.6%	3.6%	2,132,294	2,051,264	-	-	2,132,294	2,051,264
Trade and other receivables			-	-	110,007	115,095	110,007	115,095
Total Financial Assets			2,291,480	2,378,681	110,007	115,095	2,401,487	2,493,776
Financial Liabilities:								
Trade and other payables			-	-	138,477	148,772	138,477	148,772
Borrowings	4.94%	4.94%	-	-	31,477	40,990	31,477	40,990
Total Financial Liabilities			-	-	169,954	189,762	169,954	189,762

Note 24: Fair Value Measurements

The company measures and recognises the following assets and liabilities at fair value on a recurring basis after initial recognition:

- Financial assets at fair value through profit or loss;

The company does not measure any other assets and liabilities at fair value on a non-recurring basis.

(a) Fair Value Hierarchy

AASB 13 requires the disclosure of fair value information by level of the fair value hierarchy, which categorises fair value measurement into one of three possible levels based on the lowest level that an input that is significant to the measurement can be categorised into as follows:

Level 1 - Measurements based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2 - Measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 - Measurements based on unobservable inputs for the asset or liability.

The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data. If all significant inputs required to measure fair value are observable, the asset or liability is included in Level 2. If one or more significant inputs are not based on observable market data, the asset or liability is included in Level 3.

Valuation techniques

The company selects a valuation technique that is appropriate in the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured. The valuation techniques selected by the company are consistent with one or more of the following valuation approaches:

Market approach - Valuation techniques that use prices and other relevant information generated by market transactions for identical or similar assets or liabilities.

Income approach - Valuation techniques that convert estimated future cash flows or income and expenses into a single discounted present value.

Cost approach - Valuation techniques that reflect the current replacement cost of an asset at its current service capacity.

Note 24: FAIR VALUE MEASUREMENTS (Cont'd)

Each valuation technique requires inputs that reflect the assumptions that buyers and sellers would use when pricing the asset or liability, including assumptions about risks. When selecting a valuation technique, the company gives priority to those techniques that maximise the use of observable inputs and minimise the use of unobservable inputs. Inputs that are developed using market data (such as publicly available information on actual transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability and considered observable, whereas inputs for which market data is not available and therefore are developed using the best information available about such assumptions are considered unobservable.

The following table provides the fair values of the company's assets measured and recognised on a recurring basis after initial recognition and their categorisation within the fair value hierarchy:

Recurring Fair Value Measurements

		30 June 2018			
	Note	Level 1	Level 2	Level 3	Total
		$	$	$	$
Financial Assets					
Financial assets at fair value though profit or loss:					
- shares in listed corporations	12	229,747	-	-	229,747
Total financial assets recognised at fair value		229,747	-	-	229,747

Note 24: FAIR VALUE MEASUREMENTS (Cont'd)

Recurring Fair Value Measurements

		30 June 2017			
	Note	**Level 1**	**Level 2**	**Level 3**	**Total**
		$	$	$	$
Financial Assets					
Financial assets at fair value though profit or loss:					
- shares in listed corporations	12	194,473	-	-	194,473
Total financial assets recognised at fair value		194,473	-	-	194,473

(b) Transfers Policy

The policy of the company is to recognise transfers into and transfers out of the fair value hierarchy levels as at the end of the reporting period. There were no transfers between level 1 and level 2 for assets measured at fair value on a recurring basis during the reporting period (2017: no transfers).

(c) Disclosed Fair Value Measurements

The following assets and liabilities are not measured at fair value in the statement of financial position, but their fair values are discloses in the notes:
- Accounts receivable and other debtors;
- Accounts payable and other liabilities;

Note 24: FAIR VALUE MEASUREMENTS (Cont'd)

The following table provides the level of fair value hierarchy within which the disclosed fair value measurements are categorised in their entirety and a description of the valuation technique(s) and inputs used:

Description	Note	Fair Value Hierarchy Level	Valuation Technique(s)	Inputs Used
Assets				
Trade receivable and other assets	8, 9	2	Income approach using discounted cash flow methodology	Market interest rates for similar assets
Liabilities				
Trade and other payables	13	2	Income approach using discounted cash flow methodology	Market interest rates for similar liabilities

There has been no change in the valuation technique(s) used to calculate the fair values disclosed in the notes to the financial statements.

Note 25: Economic dependency – Bendigo and Adelaide Bank Limited

The company has entered into franchise agreement with Bendigo and Adelaide Bank Limited that governs the management of the Community Bank branches at North Perth, Western Australia.

The branches operates as a franchise of Bendigo Bank, using the name "Bendigo Bank" and the logo and system of operations of Bendigo Bank. The company manages the Community Bank branches on behalf of the Bendigo Bank, however all transactions with customers conducted through the Community Bank branches are effectively conducted between the customers and Bendigo Bank.

All deposits are made with Bendigo Bank, and all personal and investment products are products of Bendigo Bank, with the company facilitating the provision of those products. All loans, leases or hire purchase transactions, issues of new credit or debit cards, temporary or bridging finance and any other transaction that involves creating a new debt, or increasing or changing the terms of an existing debt owed to Bendigo Bank, must be approved by Bendigo Bank. All credit transactions are made with Bendigo Bank, and all credit products are products of Bendigo Bank.

Bendigo Bank provides significant assistance in establishing and maintaining the Community Bank branch franchise operations. It also continues to provide ongoing management and operational support, and other assistance and guidance in relation to all aspects of the franchise operation, including advice in relation to:

- Advice and assistance in relation to the design, layout and fit out of the Community Bank branches;
- Training for the branch manager and other employees in banking management systems and interface protocol;
- Methods and procedures for the sale of products and provision of services;
- Security and cash logistic controls;
- Calculation of company revenue and payment of many operating and administrative expenses;
- The formulation and implementation of advertising and promotional programs; and
- Sales techniques and proper customer relations.
