Annual Report - 2017

Wyong Town Financial Services Limited

ABN 59 100 313 120

Chairman's Report

I am pleased to present my 8th report to you on the progress of the Wyong **Community Bank**[®] Branch during the 2016/17 financial year.

The 2016/17 year has been a year full of challenges, change and growth for the branch. We have moved to the funds transfer pricing model which will benefit our bottom line. We have a new State Manager who brings with her different ideas and a fresh approach to our partnership with Bendigo Bank. Internally our structure has changed with Rhonda moving on and Lucy coming to the end of her traineeship. The biggest change has seen Mark assuming the overall responsibility of the branch whilst maintaining his Business Development Manager role. Jackie has now assumed the role of Branch Administration Manager. The branch has had another profitable year which has allowed us to pay dividends to shareholders for the 5th year running.

We have some new staff additions in Amanda Parvey taking on the CRO position and Miranda Faulks coming on board as our new Branch Trainee. We have appointed three new Board members in James Peacock, Christine Arnaldi and Geoff Hetherington. They have all settled in quite nicely and are making a positive contribution to our team.

There have been some physical changes to the branch this year with a cosmetic makeover taking place. This included new furniture, new carpet, fresh paint, upgraded digital displays and new hi tech CCTV being installed. Our branch now looks fresh, inviting and a nicer place for the staff to work in each day.

I am extremely grateful for all of the efforts and input from my fellow Directors. I am fortunate to have many dedicated and talented people giving freely of their time to serve the Board and the local community.

Thanks to the support of **Community Bank**[®] branch customers and shareholders, the Australia-wide network has now returned more than \$165 million to support and strengthen local communities.

Our **Community Bank**[®] company has played a key role in this milestone, returning more than \$351,000 to our local community. These community grants and sponsorships have made a significant difference to a number of local projects and organisations including the Pathway along Wyong River, Soldiers Beach Surf Club, The Iris Foundation and Wyong Neighbourhood Centre. We look forward to continuing to support these groups and others as more people bank with us and we become more successful.

We are looking for a major community project or initiative to lend our support to in the coming year. We request our shareholders to put forward any suggestions of worthwhile initiatives for consideration.

We are now working collaboratively with the other **Community Bank**[®] companies on the Coast to promote the brand and to increase our community involvement. We have undertaken initiatives and formed partnerships with the Central Coast Heart Netball and The Sydney Roosters. We have supported Coast Shelter via the Central Coast Cycle Challenge helping to raise over \$17,000 in the process. We are also platinum sponsors of the Relay For Life helping to raise over \$250,000 for the Cancer Council on the Central Coast.

I would urge all of our shareholders to bank with us and be an advocate for the **Community Bank**[®] model as these are the best ways to ensure we are not only profitable but are able to contribute significantly to our local community.

I would like to thank our Regional team of Kim Rowley, Sam Irving and John Carvin, as well as our locally based Business Banking team led by Steve Deane for their assistance to the Board, staff and our customers throughout the year.

I look forward to seeing you at the Annual General Meeting, and invite you to feel free to contact me at any time if you have any questions or concerns.

I wish you a safe and Happy Christmas and a prosperous new year.

Ray Davidson

Chairman

Wyong Town Financial Services Limited

ABN 59 100 313 120

Manager's Report

Wyong **Community Bank**[®] Branch

It gives me great pleasure to report to you on the 2016/17 financial year.

We have continued to have outstanding achievements not only in our branch but also in the local community.

Some of our major achievements included:

- Lending growth: we achieved Loan Book balance of \$54,551,947 which equates to 104% of our Annual Target,
- Being invited onto a Panel Presentation on Small Business at the **Community Bank**[®] National Conference in Hobart in September 2016,
- Joining with other Central Coast **Community Bank**[®] branches to be the major sponsor of the 2017 Rotary Century Challenge Bike Ride, raising much needed funds for Coastshelter, in addressing the alarming rate of homelessness and domestic violence on the Central Coast,
- Continued support for the Iris Foundation, in their efforts for the prevention of suicide through providing early intervention programs in local schools,
- Continued sponsorship of Wyong Netball Association and the Central Coast Heart NSW Premier League Netball Team,
- Continued sponsorship of Central Coast Rugby League's Central Coast Roosters Junior Development Program.

With the departure of Rhonda Hall in May 2017, our Leadership Team has now evolved with Jacqueline Martin promoted to the position of Branch Operations Manager, with myself continuing as Business Development Manager.

This created an opportunity to recruit a new Customer Relationship Officer, and we welcome Amanda Parvey to the role. After attending high school locally in Tuggerah and working for a number of banks in Australia, Amanda has recently returned from living in Washington State for the past 16 years, where she gained a wealth of experience working for the U.S. Bank.

We also recently farewelled Lucinda Kinghorne, who successfully completed a two-year Traineeship as a Customer Service Officer. During this time not only did Lucy successfully complete a Certificate III in Financial Services, she became engaged, got married, and purchased their first home. We wish Lucy and Zac every success in the future for their growing family. We have now offered another two-year Traineeship opportunity to Miranda Faulks. Miranda recently completed High School at MacKillop College, Warnervale and was excelling as a Trainee Customer Service Officer at Centrelink, which was suddenly cut short due to Government funding cuts.

Recognition must also go to Julie Wing and Kylie Klaic, our other hard working team members in the Wyong **Community Bank**[®] Branch. Our team's method of operation is to continue to place the customer as the centre of importance for everything we do.

Wyong Town Financial Services Limited

ABN 59 100 313 120

Manager's Report Continued

All of this hard work and dedication has helped us achieve another year's profit, which means we are able to again pay you, our shareholders a dividend.

Our sincere thanks to our shareholders and customers for supporting the branch through banking with us. The more you utilise our products and services the more we can give back to your community, and of course you the shareholder, through dividends.

Lastly again thank you to our Board of Directors for your time, commitment and support. We are all committed to working collaboratively for the continued success of our **Community Bank**[®] branch and running a profitable enterprise for shareholder and most importantly our community.

Mark Cooper
Business Development Manager

Director's Report

The directors present their report, together with the financial statements, on the company for the year ended 30 June 2017.

Directors

The following persons were directors of the company during the whole of the financial year and up to the date of this report, unless otherwise stated:

Mrs Elizabeth Ada North
Mr Ray Davidson
Mr David Brine
Mr David Harris
Mr David Evans
Mr Steven Brine (Resigned 22 March 2017)
Mr Garry Whitaker
Mr James Peacock (Appointed 30 January 2017)

Principal activities

The principal activities in the course of the year were to operate the Wyong Community Bank. No significant change in the nature of these activities occurred during the year.

Review of operations

The profit of the company for the financial year after providing for income tax amounted to \$94,992 (2016 profit: \$78,329). During the financial year the company operated the Wyong Community Bank.

Dividends

Dividends paid or declared since the start of the year are as follows:

- An unfranked dividend of \$32,500 was paid during the year (5c per share)(2016: \$19,500, 3 cents per share).

Options

No options over issued shares or interests in the company were granted during or since the end of the year and there were no options outstanding at the date of this report.

Significant changes in the state of affairs

No significant changes in the company's state of affairs occurred during the year.

Likely developments and expected results of operations

Likely developments in the operations of the company and the expected results of those operations in future financial years have not been included in this report as the inclusion of such information is likely to result in unreasonable prejudice to the company.

Indemnification of officers

The Company has indemnified each of the Directors against liabilities for costs and expenses incurred by them in defending any legal proceedings arising out of their conduct while acting in the capacity of Director of the Company, other than involving wilful breach to the Company. Insurance premiums were paid during or since the end of the year for the Directors of the Company.

No indemnities or insurance premiums were paid during or since the end of the year for the auditor of the Company.

Independent Auditors Report

Report on the Financial Report

Opinion

We have audited the financial report of Wyong Town Financial Services Limited (the company), which comprises the statement of financial position as at 30 June, 2017, the statement of profit and loss & other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration.

In our opinion, the accompanying financial report of Wyong Town Financial Services Limited is in accordance with the *Corporations Act 2001*, including:

- (i) giving a true and fair view of the company's financial position as at 30 June, 2017 and of its financial performance for the year then ended; and
- (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis of Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110: *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Wyong Town Financial Services Limited, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of the Directors for the Financial Report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine as necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Wyong Town Financial Services Limited
ABN 59 100 313 120

Independent Auditors Report Continued

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding , among other matters, the planned scope and timing of the audit and significant audit findings, including significant deficiencies in internal control that we identify during our audit.

Wyong Town Financial Services Limited

ABN 59 100 313 120

Notes To The Financial Statements For The Year Ended 30 June 2017

1. General information

The financial statements cover Wyong Town Financial Services Ltd as an individual entity. The financial statements are presented in Australian dollars, which is Wyong Town Financial Services Ltd's functional and presentation currency.

The financial statements were authorised for issue, in accordance with a resolution of directors, on 29 September 2017. The directors have the power to amend and reissue the financial statements.

2. Significant accounting policies

The principal accounting policies adopted in the preparation of the financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

New or amended Accounting Standards and Interpretations adopted

The company has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') and the Corporations Act 2001. These financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board ('IASB').

Critical accounting estimates

The preparation of the financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 3.

Revenue recognition

Revenue is recognised when it is probable that the economic benefit will flow to the company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable.

Rendering of services

Rendering of services revenue from computer maintenance fees is recognised by reference to the stage of completion of the contracts.

Interest

Interest revenue is recognised as interest accrues using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

Other revenue

Other revenue is recognised when it is received or when the right to receive payment is established.

Income tax

The tax expense recognised in the statement of profit or loss and other comprehensive income relates to current income tax expense plus deferred tax expense (being the movement in deferred tax assets and liabilities and unused tax losses during the year).

Current tax is the amount of income taxes payable (recoverable) in respect of the taxable profit (tax loss) for the year and is measured at the amount expected to be paid to (recovered from) the taxation authorities, using the tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting year.

Wyong Town Financial Services Limited

ABN 59 100 313 120

Notes To The Financial Statements For The Year Ended 30 June 2017

2. Significant accounting policies (continued)

Deferred tax is provided on temporary differences which are determined by comparing the carrying amounts of tax bases of assets and liabilities to the carrying amounts in the financial statements.

Deferred tax is not provided for the following:

- The initial recognition of an asset or liability in a transaction that is not a business combination and at the time of the transaction, affects neither accounting profit nor taxable profit (tax loss).
- Taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting year.

Deferred tax consequences relating to a non-monetary asset carried at fair value are determined using the assumption that the carrying amount of the asset will be recovered through sale.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and losses can be utilised.

Current tax assets and liabilities are offset where there is a legally enforceable right to set off the recognised amounts and there is an intention either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Deferred tax assets and liabilities are offset where there is a legal right to set off current tax assets against current tax liabilities and the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

Current and deferred tax is recognised as income or an expense and included in profit or loss for the period except where the tax arises from a transaction which is recognised in other comprehensive income or equity, in which case the tax is recognised in other comprehensive income or equity respectively.

Current and non-current classification

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

An asset is classified as current when: it is either expected to be realised or intended to be sold or consumed in the company's normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within 12 months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period. All other assets are classified as non-current.

A liability is classified as current when: it is either expected to be settled in the company's normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within 12 months after the reporting period; or there is no unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. All other liabilities are classified as non-current.

Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Trade and other receivables

Trade receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any provision for impairment. Trade receivables are generally due for settlement within 30 days.

Wyong Town Financial Services Limited

ABN 59 100 313 120

Notes To The Financial Statements For The Year Ended 30 June 2017

2. Significant accounting policies (continued)

Collectability of trade receivables is reviewed on an ongoing basis. Debts which are known to be uncollectable are written off by reducing the carrying amount directly. A provision for impairment of trade receivables is raised when there is objective evidence that the company will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation and default or delinquency in payments (more than 60 days overdue) are considered indicators that the trade receivable may be impaired. The amount of the impairment allowance is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. Cash flows relating to short-term receivables are not discounted if the effect of discounting is immaterial.

Other receivables are recognised at amortised cost, less any provision for impairment.

Inventories

Stock on hand is stated at the lower of cost and net realisable value. Cost comprises of purchase and delivery costs, net of rebates and discounts received or receivable.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Investments and other financial assets

Investments and other financial assets are initially measured at fair value. Transaction costs are included as part of the initial measurement, except for financial assets at fair value through profit or loss. They are subsequently measured at either amortised cost or fair value depending on their classification. Classification is determined based on the purpose of the acquisition and subsequent reclassification to other categories is restricted.

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the company has transferred substantially all the risks and rewards of ownership.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are either: (i) held for trading, where they are acquired for the purpose of selling in the short-term with an intention of making a profit; or (ii) designated as such upon initial recognition, where they are managed on a fair value basis or to eliminate or significantly reduce an accounting mismatch. Except for effective hedging instruments, derivatives are also categorised as fair value through profit or loss. Fair value movements are recognised in profit or loss.

The amount of the impairment allowance for financial assets carried at cost is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the current market rate of return for similar financial assets.

Property, plant and equipment

Leasehold improvements are measured on the cost basis and are therefore carried at cost less accumulated depreciation and any accumulated impairment.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably.

Plant and equipment is stated at historical cost less accumulated depreciation and impairment. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Depreciation is calculated on a straight-line basis to write off the net cost of each item of property, plant and equipment (excluding land) over their expected useful lives as follows:

Office furniture and equipment	4 years
Leasehold improvements	5 years
Motor vehicle	5-7 years

The residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each reporting date.

Wyong Town Financial Services Limited

ABN 59 100 313 120

Notes To The Financial Statements For The Year Ended 30 June 2017

2. Significant accounting policies (continued)

Leasehold improvements and plant and equipment under lease are depreciated over the unexpired period of the lease or the estimated useful life of the assets, whichever is shorter.

An item of property, plant and equipment is derecognised upon disposal or when there is no future economic benefit to the company. Gains and losses between the carrying amount and the disposal proceeds are taken to profit or loss. Any revaluation surplus reserve relating to the item disposed of is transferred directly to retained profits.

Leases

The determination of whether an arrangement is or contains a lease is based on the substance of the arrangement and requires an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset.

A distinction is made between finance leases, which effectively transfer from the lessor to the lessee substantially all the risks and benefits incidental to the ownership of leased assets, and operating leases, under which the lessor effectively retains substantially all such risks and benefits.

Finance leases are capitalised. A lease asset and liability are established at the fair value of the leased assets, or if lower, the present value of minimum lease payments. Lease payments are allocated between the principal component of the lease liability and the finance costs, so as to achieve a constant rate of interest on the remaining balance of the liability.

Leased assets acquired under a finance lease are depreciated over the asset's useful life or over the shorter of the asset's useful life and the lease term if there is no reasonable certainty that the company will obtain ownership at the end of the lease term.

Operating lease payments, net of any incentives received from the lessor, are charged to profit or loss on a straight-line basis over the term of the lease.

Impairment of non-financial assets

Goodwill and other intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other non-financial assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount.

Trade and other payables

These amounts represent liabilities for goods and services provided to the company prior to the end of the financial year and which are unpaid. Due to their short-term nature they are measured at amortised cost and are not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

Borrowings

Loans and borrowings are initially recognised at the fair value of the consideration received, net of transaction costs. They are subsequently measured at amortised cost using the effective interest method.

Where there is an unconditional right to defer settlement of the liability for at least 12 months after the reporting date, the loans or borrowings are classified as non-current.

Finance costs

Finance costs attributable to qualifying assets are capitalised as part of the asset. All other finance costs are expensed in the period in which they are incurred.

Employee benefits

Short-term employee benefits

Liabilities for wages and salaries, including non-monetary benefits, annual leave and long service leave expected to be settled wholly within 12 months of the reporting date are measured at the amounts expected to be paid when the liabilities are settled.

Wyong Town Financial Services Limited

ABN 59 100 313 120

Notes To The Financial Statements For The Year Ended 30 June 2017

2. Significant accounting policies (continued)

Other long-term employee benefits

The liability for annual leave and long service leave not expected to be settled within 12 months of the reporting date are measured at the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

Fair value measurement

When an asset or liability, financial or non-financial, is measured at fair value for recognition or disclosure purposes, the fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date; and assumes that the transaction will take place either: in the principal market; or in the absence of a principal market, in the most advantageous market.

Fair value is measured using the assumptions that market participants would use when pricing the asset or liability, assuming they act in their economic best interests. For non-financial assets, the fair value measurement is based on its highest and best use. Valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, are used, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Earnings per share

Basic earnings per share

Basic earnings per share is calculated by dividing the profit attributable to the members of Wyong Town Financial Services Ltd, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the financial year.

Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

Goods and Services Tax ('GST') and other similar taxes

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the tax authority. In this case it is recognised as part of the cost of the acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the tax authority is included in other receivables or other payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the tax authority, are presented as operating cash flows.

New Accounting Standards and Interpretations not yet mandatory or early adopted

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the company for the annual reporting period ended 30 June 2017. The company has not yet assessed the impact of these new or amended Accounting Standards and Interpretations.

Wyong Town Financial Services Limited

ABN 59 100 313 120

Notes To The Financial Statements For The Year Ended 30 June 2017

3. Critical accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities (refer to the respective notes) within the next financial year are discussed below.

Provision for impairment of inventories

The provision for impairment of inventories assessment requires a degree of estimation and judgement. The level of the provision is assessed by taking into account the recent sales experience, the ageing of inventories and other factors that affect inventory obsolescence.

Estimation of useful lives of assets

The company determines the estimated useful lives and related depreciation and amortisation charges for its property, plant and equipment and finite life intangible assets. The useful lives could change significantly as a result of technical innovations or some other event. The depreciation and amortisation charge will increase where the useful lives are less than previously estimated lives, or technically obsolete or non-strategic assets that have been abandoned or sold will be written off or written down.

Impairment of non-financial assets other than goodwill and other indefinite life intangible assets

The company assesses impairment of non-financial assets other than goodwill and other indefinite life intangible assets at each reporting date by evaluating conditions specific to the company and to the particular asset that may lead to impairment. If an impairment trigger exists, the recoverable amount of the asset is determined. This involves fair value less costs of disposal or value-in-use calculations, which incorporate a number of key estimates and assumptions.

Income tax

The company is subject to income taxes in the jurisdictions in which it operates. Significant judgement is required in determining the provision for income tax. There are many transactions and calculations undertaken during the ordinary course of business for which the ultimate tax determination is uncertain. The company recognises liabilities for anticipated tax audit issues based on the company's current understanding of the tax law. Where the final tax outcome of these matters is different from the carrying amounts, such differences will impact the current and deferred tax provisions in the period in which such determination is made.

Employee benefits provision

As discussed in note 2, the liability for employee benefits expected to be settled more than 12 months from the reporting date are recognised and measured at the present value of the estimated future cash flows to be made in respect of all employees at the reporting date. In determining the present value of the liability, estimates of attrition rates and pay increases through promotion and inflation have been taken into account.

For The Year Ended 30 June 2017

24. Financial instruments

Financial risk management objectives

The company's activities expose it to a variety of financial risks: market risk (including foreign currency risk, price risk and interest rate risk), credit risk and liquidity risk. The company's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the company. The company uses different methods to measure different types of risk to which it is exposed. These methods include sensitivity analysis in the case of interest rate risk and ageing analysis for credit risk.

The company's financial instruments consist mainly of deposits with banks, local money market instruments, short-term investments, accounts receivable and payable, loans to and from subsidiaries, bills and leases.

The directors' overall risk management strategy seeks to assist the company in meeting its financial targets, whilst minimising potential adverse effects on financial performance. Risk management policies are approved and reviewed by the Board of Directors on a regular basis. These included the credit risk policies and future cash flow requirements.

The totals for each category of financial instruments, measured in accordance with AASB 139 as detailed in the accounting policies to these financial statements are as follows:

	2017 \$	2016 \$
Financial assets		
Cash and cash equivalents	292,700	216,244
Trade receivables	184,257	173,392
Total financial assets	<u>476,957</u>	<u>389,636</u>
Financial liabilities		
Trade payables	(25,339)	(26,482)
Interest bearing liabilities	(4,833)	(13,862)
Total financial liabilities	<u>(30,172)</u>	<u>(40,344)</u>

Interest rate risk

The exposure to interest rate risk on financial assets and financial liabilities recognised at the end of the reporting period whereby a future change in interest rates will affect future cash flows or the fair value of fixed rate financial instruments.

All interest bearing liabilities are held at fixed rates.

	2017 \$	2016 \$
Floating rate instruments		
Cash and cash equivalents	<u>292,700</u>	<u>216,244</u>

Sensitivity analysis

Interest rates

The company has performed a sensitivity analysis relating to its exposure to interest rates risk at balance date. This sensitivity analysis demonstrates the effect on the current year results and equity which could result from a change in these risks.

At 30 June 2017, the effect on profit and equity as a result of changes in the interest rates, with all other variables remaining constant would be as follows:

Wyong Town Financial Services Limited
ABN 59 100 313 120

Notes To The Financial Statements
For The Year Ended 30 June 2017

26. Commitments

	2017 \$	2016 \$
<i>Lease commitments - operating</i>		
Committed at the reporting date but not recognised as liabilities, payable:		
Within one year	45,937	45,937
One to five years	128,625	34,359
	<u>174,562</u>	<u>80,296</u>

The property lease is a non-cancellable lease with a 3 year term to 31 March 2018 and an option exists to renew the lease for an additional term after the 3 year period. The board of directors will assess their options and requirements prior to the expiry date. Rent is payable monthly in advance. Contingent rental provisions within the lease agreement provide for a CPI increase in April each year, the amounts disclosed above do not include any potential future CPI increases.

27. Related party transactions

Transactions with related parties

There were no transactions with related parties during the current and previous financial year.

Receivable from and payable to related parties

There were no trade receivables from or trade payables to related parties at the current and previous reporting date.
